## Interim Budget Approved

From Leduc County

Leduc County council approves 2018 interim budget  
Leduc County council approved a 1.45 per-cent tax dollar budget increase for the 2018 interim budget on Thursday, Dec. 7.

The interim municipal operating budget is set at \$80.7 million, with the interim municipal capital budget set at \$14.7 million. These figures represent a 1.45 per-cent tax dollar budget increase over the 2017 final budget.

“Leduc County council is renewing its commitment to efficient, effective county operations through the approval of the 2018 interim budget. The proposed 1.45 per-cent approved tax dollar budget increase ensures current operations are maintained or enhanced and new initiatives are developed to meet the changing needs and growing demands in the region.” said Mayor Tanni Doblanko

The passing of the interim budget allows projects to proceed before the 2018 budget is given final approval and tax rates are set in early May. Notices will be mailed to all ratepayers in May after council sets the 2018 tax

# MENTAL WELLNESS TIPS FOR THE HOLIDAYS

The holiday season is a busy time for most people. There is so much to do and plan for, which can bring up feelings of being overwhelmed, anxious, stressed or depressed. Incorporate the below tips to have a more balanced holiday season:

## 1. Budget

There are many expenses during the holidays. Whether you are spending money on gifts, food or travel, you may overextend yourself. Be sure to plan your budget in advance of the holiday season and consider hosting a secret santa so you purchase fewer gifts.

## 2. Family

Families don't always get along; family members may push boundaries and you may feel obligated to do things that you don't want to do. Try to set boundaries with your family and communicate with them.

## 3. Overindulging

During the winter months, our activity levels slow down and there are many opportunities to consume rich food and alcohol, which can lead to feelings of guilt or shame. When you plan your holiday schedule, allow yourself opportunities to get active.

## 4. Taking on too much

You may have over-committed yourself during the holiday season. Make a list and prioritize the important activities and let others share the responsibilities of holiday tasks.

## 5. Loneliness and isolation

Loneliness and isolation can be a concern for many people during the holidays. Consider picking up a winter hobby or joining a group to give you planned interactions. You could also volunteer with a local non-profit.

## 6. Loss

The holidays can be a reminder of the loss of a loved one. Acknowledge that this holiday season won't be the same and try to view it as an opportunity to create new traditions as a way to keep your loved one's memory alive.

## 7. Seasonal Affective Disorder (SAD)

SAD is a type of depression that's related to changes in seasons. The symptoms include tiredness, depression, mood changes, irritability, trouble concentrating, body aches, insomnia, decreased interest in activities and overeating. Treatment for SAD may include light therapy (photo therapy), psychotherapy and medications. Speak to a mental health professional in your community about the options available to you.

## 8. Year-end reflection

As the year comes to a close, many of us are reflecting on what has changed or stayed the same. It is important to be grateful and gentle with yourself and take stock of things that are going well, or that you have done well.
