

THE BRETON BOOSTER

To Help Or Not To Help Facilitating Positive Action from Bystanders From Pembina Crisis Connection Society

You are invited to prevent abuse & bullying on Tuesday, November 13, 2018 at 7 p.m. at Lakeview Inn & Suites.

Everyday we are bystanders to situations in which people need assistance. There are countless moments in our daily lives in which we witness people in circumstances that have the potential to cause them harm. How do we decide who to help and why?

This presentation will provide an overview of social-psychological research & theories on bystander behaviour. We will explore the factors that facilitate positive action as well as common factors that inhibit action. This session will conclude with 5 pivotal steps that individuals must undertake to provide effective intervention to assist those in need.

This FREE presentation is proudly hosted by: Pembina Crisis Connection Society. Please call 780.621.2363 to register or for more information.

Facilitator of "To Help or Not to Help": Dr. Betty Jo Barrett PhD, Associate Professor and Director of Women's Gender Studies, University of Windsor, acclaimed researcher & speaker

We are Back In Class! Breton High School News From Mrs. Carson

We are back and we are busy! We have increased enrollment in our school and welcomed 32 Grade 7 students to our population. We also have new students in other grades and are happy to welcome them as well.

We have had a staff change, with Ms. Wicks giving her resignation over the summer. Mrs. Carson is now working full time, but we are hoping to fill Ms. Wick's Monday and Friday shift soon. The job has been posted to the Wild Rose Careers link on the Wild Rose website.

We will be having the Terry Fox Run on September 28th, 2018 during periods 4 and 5. There will be a hot dog concession afterwards during lunch, with all proceeds going to the Terry Fox Run.

Drama Club will start Wednesday, September 19, after school. In The Garden: We had a good summer in the garden, and our crops did well. We managed to grow one watermelon. We harvested it last week just before the temperature changed to minus 8 and found it to be a little under ripe. However it tasted like a watermelon, just lacked the sweetness of a fully ripe one. The carrot crop is very good and we have a nice bunch of small tomatoes as well. The peas are starting to fill. We are waiting for drier weather before we take our first harvest of them. We did purchase a small electric lawn mower and that has proven to be a very useful addition, not only in keeping things tidy but it mulches the grass clippings very well, so they should turn into compost quicker than usual.

There is no school for students this Friday, September 21. All staff will be attending a PD session at our school that day.

Important Dates

September 18 – Picture Day
September 21 – P D Day – No School For Students
September 28 – Terry Fox Run and Hot Dog Sale

SERENITY FAMILY SERVICE SOCIETY - YOUR NOT-FOR-PROFIT SOCIETY

HEALTH MATTERS

BY DR. JOHN F. HUNTER

Children & Technology

As kids spend more and more time using devices, issues like text neck become real developmental threats. Use of these devices often reinforces poor posture. Associated risks include: headaches; neck and shoulder pain; upper and lower back pain; and sore hands, fingers and forearms.

Tips

- Limit or minimize the hours your child sits with their device(s).
- Kids are meant to move! Ensure your child is getting regular physical activity.
- When sitting, encourage your child to sit up straight with chest out and shoulders back.
- If your child must look down at their device, encourage them to tuck their chin into their neck instead of hanging their head forward.
- Make sure your kids stretch their hand, shoulder and neck muscles to strengthen their posture.

Covenant Corner

from Pastor Jeff Gooderham

Sometimes we might feel all alone, especially in times of crisis. We might wonder - where are you God? Here is a great story that I pray will encourage you to remember that God is always right with those who trust in Him.

John Paton was a missionary in the New Hebrides Islands. One night hostile natives surrounded the mission station, intent on burning out the Paton's and killing them. Paton and his wife prayed during that terror-filled night that God would deliver them. When daylight came they were amazed to see their attackers leave.

A year later, the chief of the tribe was miraculously converted to Christ. Remembering what had happened, Paton asked the chief what had kept him from burning down the house and killing them. The chief replied in surprise, "Who were all those men with you there?" Paton knew no men were present--but the chief said he was afraid to attack because he had seen hundreds of big men in shining garments with drawn swords circling the mission station.

Psalm 91:11 says; "For He will command His angels concerning YOU to guard YOU in all your ways!" What a tremendous promise!

ANTIQUE AND VINTAGE ADVERTISING

Since the late 60s the field of collectable advertising has grown tremendously. Beautiful examples of early advertising appeal to the nostalgia in all of us representing a small part of the good old days. Manufacturers went to great lengths to decorate their signs, posters, statues, emblems and cans advertising the quality goods they offered.

The earlier examples of old advertising were paper, usually chromolithographs. Full colour signs and packaging often required a dozen or more plates, each using a specific colour. That quality achieved is seldom matched by the 4 colour process in common usage today.

Next came tin. The technology required to reproduce colour lithography on Tin became available in the 1880,s. It is highly desirable today and includes a whole spectrum of collectables even tin litho toys.

Reverse painting on glass required a great deal of handwork and was the most expensive to produce. The brilliance and depth of colour was unmatched. Many of these signs contained such special features as gold or silver leaf, decals,crackled glass, stained glass and even mother of pearl. This form of advertising is rare with many collectors considering reverse glass to be the finest type of early advertising. The Porcelain sign was developed in the 1880s. Many early Porcelains advertising North American companies were produced in England. Porcelain signs do not have the detail of lithographed paper or tin, nor the colour of reverse glass but they can withstand outdoor climates and that has made them the king of advertising Collectibles.

Rounding out Collectible advertising is celluloid and leaded stained glass. Celluloid was used in mirrors, keychains, small box adver-

tising while stained glass more for permanent fixed advertising.

Conditioning is very important in considering value ranging from Mint or New Condition to below fair.

What ever you collect try and get the best you can find and enjoy what you collect. Beauty is in the eye of the beholder. If you love it, buy it. We frequently have a good selection of early advertising at LOGANBERRYS ANTIQUES AND CURIOSITIES. Open Tues - Sunday
