Covenant Corner

from Pastor Jeff Gooderham

During his time as a rancher, Theodore Roosevelt and one of his cowpunchers lassoed a maverick steer, lit a fire, and prepared the branding irons. The part of the range they were on was claimed by Gregor Lang, one of Roosevelt's neighbors. According to the cattleman's rule, the steer therefore belonged to Lang. As his cowboy applied the brand, Roosevelt said, “Wait, it should be Lang's brand.”

“That's all right, boss,” said the cowboy.

“But you're putting on my brand,” Roosevelt said.

“That's right,” said the man.

“Drop that iron,” Roosevelt demanded, “and get back to the ranch and get out. I don't need you anymore. A man who will steal for me will steal from me.”

In the book of Proverbs chapter 11 verse 3 we are told that; “The integrity of the upright guides them, but the crookedness of the treacherous destroys them.” It is so important that we walk with integrity even, and especially, if it costs us.

Thorsby RCMP Investigate Two Break and Enters

Thorsby, Alberta - Thorsby RCMP are investigating two break and enters targeting ATM machines that occurred early Sunday morning

At approximately 4:30 a.m. on Sunday, October 6th, 2019, Thorsby RCMP were dispatched to an alarm at the Village Supermarket, 5101 50th Ave, Thorsby. A short time later, a resident reported that they had heard a loud noise and looked outside and saw that the Thorsby Esso gas station looked like someone had just broken in.

RCMP officers attended the gas station first. CCTV cameras show a silver F-350 with aluminum rims backed up to the glass door of the business. A male wearing a black hoody then broke the glass and entered the store where he attached a sling to the ATM. The truck then drove forward, removing the ATM and causing significant damage in the process.

Investigators also discovered that the Village Supermarket had been broken into in a similar fashion and the thieves attempted to steal the ATM from that business as well but were unsuccessful.

Images from CCTV cameras are attached. It is believed that the F-350 may have broken a tail light during the crime and there is pre-existing damage noticeable on the drivers door. Anyone who may have information on these break and enters is asked to contact the Thorsby detachment at 780-789-3951. If you wish to remain anonymous, you can contact Crime Stoppers at 1-800-222-8477 (TIPS), online at www.P3Tips.com or by using the "P3 Tips" app available through the Apple App or Google Play Store.

MLA REPORT

from The Office of MLA Mark Smith,
Member of the Legislative Assembly
for Drayton Valley - Devon

Most Albertans have no difficulty in understanding that the last four years have not been kind to the oil and gas industry in Alberta. Across this province and especially in this constituency families and businesses have struggled to maintain their standard of living and keep their doors open.

So it is not surprising that Leduc #1 Canadian Energy Museum has struggled right along with the rest of Alberta. The Canadian Energy Museum is devoted to telling Alberta's energy story and is located just outside of Devon on the very spot where in 1947 the oil well that started Alberta's oil boom was discovered.

This museum has never been like many of the museums in Alberta because it is telling the story of modern Alberta, the story of oil and gas and the contributions Albertans have made in creating the most efficient and environmentally responsible oil and gas industry anywhere in the world.

The museum it is a testament to the start of the oil and gas industry in Alberta to the technological advances in the oil industry that have resulted in our world having a steady supply of low cost energy that has raised standards of living around the world and literally fueled our modern lifestyle.

This one of a kind museum began as a result of the vision, not of government, but of some of the early oil and gas pioneers. Many of these men and women while they had travelled around the world made Drayton Valley-Devon and Alberta their home. Their vision, money and volunteerism combined with generous support over the years from many oil companies helped to build, collect, exhibit and promote our Canadian Energy history in this important

museum.

I have been in the museum many times and every time I leave with a renewed faith in Albertans. We are a hardworking people that value both individual effort and community. The Canadian Energy Museum has always depended on the financial contributions of companies, local government, individual Albertans and the volunteerism of retired oil workers. I met with the board of the museum the other day and walked out realizing that if we are to keep this jewel of a museum open and continuing to tell the story of this important part of Alberta life that we are going to have to apply this same formula. The Canadian Energy Museum needs your help. Are you willing to volunteer your services to the museum? Do you have the ability to help raise funds for the museum? If so then it is time to act, give the museum a call and ask how you can help and together we can continue to tell the amazing story of energy in Alberta, Canada and around the world.
