## Thorsby/Warburg Nurse Practitioner Ready To Start Seeing Patients

From Primary Care Network  
Leduc Beaumont Devon

Announced last month, the underserved towns of Thorsby and Warburg, and their surrounding communities, are going to be receiving primary care support from a dedicated Nurse Practitioner NP). Michelle Williams, NP, has been hired by the Leduc Beaumont Devon Primary Care Network (LBD PCN) through a grant provided by the Government of Alberta via the Nurse Practitioner Support Program.

Space for the Thorsby and Warburg Nurse Practitioner-Led Clinics has been secured and while minor renovations to the spaces are being completed, Michelle will begin “meet and greets” with potential patients at the LBD PCN office in Leduc starting March 16th. If you live in Thorsby or Warburg or their surrounding communities and do NOT have a family physician, you can request a meet and greet with the Nurse Practitioner by calling 780-986-6624.

After your meet and greet, if you then think that the Nurse Practitioner is a good fit for you, you would then agree that Michelle will be your

primary care provider and you will be counted on her patient panel. This means that you will see the Nurse Practitioner for your health care needs whenever possible. As a patient of an LBD PCN health care professional, you are then able to access any of the programs and services offered at the PCN.

Michelle will provide health services to individuals, families, and communities including health promotion, disease and injury prevention, and treatment of acute and chronic illness. NPs provide healthcare that is grounded in nursing care and includes the physical, emotional, social, and psychological aspects of your health. NPs can:

- Diagnose and treat illness and injury
- Perform physical examinations and screening interventions
- Order and interpret diagnostic tests, such as lab tests and x-rays
- Provide counselling and education
- Refer you to other healthcare professionals and specialists
- Prescribe medications
- Manage chronic diseases such as diabetes, COPD

To find out about programs and services offered at the LBD PCN, please see our website <http://lbdpcn.com/Programs/Pages/default.aspx>. Leduc Beaumont Devon Primary Care Network #301 4710 - 50th Street Leduc, AB Phone: (780) 986-6624

## Volunteer Income Tax Program

The **Community Volunteer Income Tax Program** is now completing 2019 income taxes free-of-charge for people with low to modest income and a simple tax situation. This can include seniors, students, social assistance recipients and newcomers to Canada. The volunteer program does not complete returns for people who are deceased, bankrupt, or have business, farming or rental income. Assistance to complete past year tax returns is also available.

In order to be eligible to receive the **Guaranteed Income Supplement, GST Tax Credit, Canada Child Benefit, Canada Workers Benefit** or the **Climate Action Incentive**, your 2019 tax return must be filed. Income taxes are due by April 30. To find out if you are eligible for this program or to make an appointment, please contact your local FCSS office:

Beff Club Report**  
by: **Elizabeth Goerzen  
& Sierra Androschuk**

The Lin-Berry-Buck 4-H Beef Club started regular meetings at the Lindale Hall in the fall.

We held a safe Weigh-in on Nov. 3 at Adullam Ranch. The average steer was 650-700 Lbs and it ran smoothly without any incidents.

Our club went bowling for our Christmas party at the Thorsby Rec. Center.

The Lin-Berry-Buck Club is a great learning experience to learn about cattle as well as skills you use in your everyday life.

Public speaking competitions started at the end of February, and we will be participating in a calf tour on the 21st of March. We will also be hosting our annual Spring Supper & Member Auction on April 3rd in Breton.

We have been a busy club over the past few months!

In December, our members enjoyed volunteering for the Fireman's Food Drive and the Leduc County Lights. Prior to Christmas, our Club sold Stawnichy's Sausage as a fundraiser. We would like to take an opportunity to thank everyone who bought sausage from us, we really appreciate your support.

On January 25, some members from our club attended the Bull Congress Fitting Clinic in Camrose. It was a great day full of learning. On February 1, we held our public speaking day at Wilton Park Hall. Congratulations to all of the speakers on a job well done.

Junior Speech 1st place- Shelby Horn; 2nd place - Hannah Lunde Junior Presentation 1st place Kehven Brewster; 2nd place Ethan Dobko Intermediate Speech 1st place Kohl Palmer; 2nd place Nick Orlick Intermediate Presentation 1st place Ashton Dobko; 2nd place Bruce Lunde Senior Speech 1st place Amanda Hara-kal

Kohl Palmer, Bruce Lunde and Kehven Brewster took their speeches to Districts where Kehven placed 1st and Bruce placed 2nd. Congratulations to both of you! We wish Kehven the best of luck competing at the Regional Level!

On February 8 our club went on a calf tour. We visited the farms of all of our members to check out the progress of each calf. It is evident that all of the members are working hard with their beef projects to get ready for the Show Day and Sale on May 4, 2020. During the tour we stopped and had lunch at the Thirsby Hotel Bar and Grill.

## Your spinal health

Your spine keeps you standing, sitting, walking, dancing and all other every day activities—but what happens to it as we age? What are the conditions and disease that affect the spine? Is it inevitable that we will all end up hunched over when we're older or are there things that can be done to keep our spines and backs strong and healthy?

### Maintaining a healthy spine

Calcium is a very important factor in the growth, development and strengthening of bones. Calcium is what helps bones develop and strengthen. Most people in North America focus on dairy products as the only way to get calcium, but other foods high in calcium are: sesame seeds, almonds and dark green leafy vegetables.

As with any health condition, the younger you are when conditions are discovered, the more options you have in treating, possibly stopping and maybe even reversing it. In cases of scoliosis, because of the early age of onset, children should be checked by a chiropractor to make sure if scoliosis is developing the child is treated while still in the early stages.

Contrary to what most think, a herniated disc doesn't occur after a single incident. It takes years of repetition and stiffness in the joint to eventually create a herniated disc. It is crucial that you exercise regularly and include a good stretching routine on a regular basis throughout your day – especially if you are at a desk,

in a car or are sedentary for most of the day.

### How can chiropractic help?

Chiropractors work with patients to resolve pain, discomfort and restricted range of motion that can result from injury.

When you experience stiffness between two vertebrae, chiropractors determine which vertebrae aren't moving properly and adjust them to help their movement return. This isn't about a "fix" or a "clicking back into place." It's about returning the normal movement your joint is anatomically designed to do and movement you need to protect your spine.

Your body has the capacity to heal and when joints are moving properly your muscles can begin to take over and work efficiently again.

If you find yourself in pain, don't wait to seek treatment. Your chiropractor will work with you to ensure your treatment is the optimal, conservative approach based on your health history and current injury or condition.

Current patients give their chiropractic treatment a 96% satisfaction rating. (Ipsos, 2014)

Throughout your life, continued movement will help keep you feeling and living better. And that's what doctors of chiropractors can help you with. As you experience aches and pains or notice something that doesn't feel right, chiropractors are educated and trained to diagnose and treat you.

Because your goal should be to enjoy each stage of your life being able to do the things you love.

## MLA REPORT

from The Office of MLA Mark Smith,  
Member of the Legislative Assembly  
for Drayton Valley - Devon

### Balancing the Budget

Last year, in Budget 2019, we introduced a balanced, prudent and thoughtful four-year plan to eliminate the largest deficit in Alberta's history while maintaining essential services and supporting the most vulnerable Albertans.

Budget 2020 continues this plan, and we are on track to balance Alberta's budget by fiscal year 2022-23. In fact, the projected deficit has decreased even faster than we initially planned. This year's deficit will be \$1.2 billion dollars less than we had projected in Budget 2019. Our government spends about \$2 billion every year just to service our debt. This works out to nearly \$5 and a half million a day! That's enough money to buy 30 ambulances every day, build a new school every week, or pave the QEII from Calgary to Red Deer every month.

Getting back to balance is the first step towards paying down our debt and redirecting this money towards the front-line services that Albertans rely on. Our plan involves reducing government's operating spending by 2.8 per cent, less than three cents on the dollar, over the four-year fiscal plan. This is both responsible and fair.

Budget 2020 is also about creating jobs. The Alberta 2020 budget changes will make Alberta more competitive than other jurisdictions, encouraging sustainable diversification, and while rewarding innovation. We are attracting private investment to Alberta with the Job Creation Tax Cut. This will reduce Alberta's corporate income tax rate to 8 per cent by 2022. And we are already seeing results from this

initiative:

For example, CNRL, Mainstreet Equity and others have made big investments here in part because of our lower tax regime and Capital Cost Allowance.

In addition, our commitment to reducing red tape by one third by the end of 2023 is removing major obstacles and creating opportunities for business to expand and hire Albertans. This will allow businesses to focus on their bottom line, improve their revenues, and hire Albertans instead of wasting time navigating burdensome regulatory hoops.

Budget 2020 also underlines our commitment to Albertans to get the best value for their tax dollars and to maintain funding for health care, social services and education. We've kept that promise. There have not been any funding cuts to health or education. In fact, we will be funding Health and Education at record levels:

Health Care has a slight increase to its budget coming out at \$20.6 billion.

Education has a small increase to its budget at \$8.3 billion.

Community and Social Services \$3.9 billion and Children's Services at \$1.6 billion.

We are also re-focusing how dollars are spent to ensure that funding is sent straight to the front line and are supporting Albertans who need it most. The new funding formula in education is designed to give school boards predictability in their budgets and ensure that education dollars are going to the classroom where they are needed most.

We will reduce overall expenses and are making prudent investments that will pay off this year, and in years to come. Budget 2020 takes the steps we need to take to rebuild the ground we lost during the past 5 years. The fiscal plan that started in 2019 is still strong, still in place, and already proving successful. We are on track.
