

THORSBY TARGET

Self-Isolating Options for Thorsby & Area Residents

From Laurie Gellert

We are living in a new world, and we are learning to adapt to this changing world daily. To help keep our community as safe as possible it is good to see many self-isolating or only going out when absolutely necessary. However, we all still need supplies, and to help keep everyone as safe as possible these businesses have stepped up to offer alternatives to the way we shop.

In order to ensure that your order goes smoothly, please be patient and understand that they may not have every item in stock that you require. Please allow flexibility on the brand of item that you are requesting, and make generic requests for "bread, milk, eggs". This will make the process much easier and will allow for more orders to be filled.

Please contact the business directly to order, for questions and detailed information regarding delivery / curbside pick-up and payment options.

LETTER TO THE EDITOR

High Five Mayor Raymond!

Your views on "Stay Home" in last week's Target were excellent.

I have had issues with Council in the past and I am sure that I will have them in the future.

I always thought you dealt with issues with a "kid glove" but now realize you can also manage with an "iron fist". You have shown leadership, not only to the citizens of Thorsby but all of Canada and beyond. Leadership is a fact and facts cannot be incorrect.

I now feel more confident in your role as Mayor. Keep up the good work!

Respectfully submitted,
Irene MacPherson

MESSAGE FROM THE MAYOR From Mayor Rod Raymond

Small Town Advantage

Here we are in the middle of a pandemic. I am so happy that just about everyone is complying with social distancing and respecting the people who own and work in our local stores. Buying local, ensures that we will have access to essentials. I wish to extend and heartfelt thank you our merchants and their staff. This is the first "Small Town advantage. Our merchants.

I want to give a huge shout out to all our local industry and businesses. You guys are the anchor of the community, and you continually prove that you are the best corporate citizens any community could ask for and we thank you. This would be the second Small Town Advantage.

I want to give a shout out to our Town Manager, Christine, the Public Works Manager, Wayne (DEM), Office Manager Marianne, FCSS, Patti, and all our town staff. You all have gone above and beyond expectations. We on council, thank you for your efforts and appreciate the work you all do. The 3rd Small Town Advantage

I want to thank our restaurants for staying open and providing takeout. It must be tough, and I really appreciate your dedication to your community. I would hope, everyone, from time to time, if they can afford it, support our restaurants with takeout orders. This is the 4th Small Town Advantage.

I want to give a shout out to my fellow councilors. I really do appreciate your efforts, your perspectives and your commitment to your community. Ken, who returned from the US, 2 weeks ago, I commend you for following the 14-day isolation rules. I know Carol has threatened to beat you, but you and Wiley only have a few more days of isolation. LOL. Having four other like-minded, intelligent, fiscally responsible people on council is the 5th Small Town Advantage.

I think the largest Small-Town Advantage is the people, that live here. To my fellow citizens, I commend you on how, we pull together in a time of crisis. It makes me proud to be your Mayor, even if the rest of my hair falls out. LOL I cannot think of any better place to be during this crisis then here. There are so many other Small-Town Advantages, but to me, this is the best one.

I was going to write something witty about our seniors and our teenagers. The Prime Minister beat me to it. We know, you guys/gals, in isolation feel the most pain. As a senior, it is tough to be home and not be out with your friends and family. The same can be said of our kids/teenagers. The commonality between both age groups, surprised me. A little inconvenience now is all we ask for, for we will get through this.

Face Masks: you do not have to be afraid of anyone wearing a face mask. Wearing a face mask does not prevent you from catching the virus, but may help limit the spread of the virus. The person wearing the mask is protecting you! If a person is infected and not showing any signs, inadvertently they could be infecting other people. Statistically, in China, they estimate that 86% of the people who didn't show symptoms infected other people. This is important information.

My sister made Sandi and I masks, and I will wear it in public places (along with nitrile gloves) and If infected (I'm not) it will reduce the odds of infecting someone else. It is an issue of respect and prevention. Don't be afraid, arm yourselves with information. Both levels of Government are doing a great job, and there is so much on the web on what other countries are doing also, however, like any web-based information, you still need to sift through the BS and watch out for Covid scams.

As I have said in the past; comply with the prevention measures and we will get through this. Short term pain for long term gain! STAY HOME and go out for only essentials. Wash your hands and don't touch your face! Stay 6 feet – 2 Meters apart and don't share doobie's!

Straight Out of Thorsby

THS Grads and the Old West

From the County of Leduc, from Alberta and Canada, from Singapore to the U.K., from Australia to Holland, from the USA to Panama, Thorsby graduates are making a difference. This is the 59th installment in a series of profiles which indicate what a small school and community can produce.

The people who conduct the interviews are Audrey Brosseau and John Elson. If you have suggestions please contact John at 780-789-3822 or Audrey at 780-886-0658.

THS Grads and the Old West

From John Elson

Pastor Jeff Gooderham, in his Covenant Corner column (The Target, Mar.20) introduced us to an outlaw who has added much to the romance of the Old West. This was Black Bart, a stagecoach robber operating mainly in California and Idaho from 1875 onwards. His exploits (if that is the correct word) set the tone perfectly for a happening in another part of the Old West that has lived on in legend for close to 140 years. The site is Tombstone, AZ. In the not too distant past four intrepid grads of THS set out for Tombstone to discern what the fuss was about at the OK Corral. But first let's take Pastor Gooderham's findings a little further.

The Pastor, in explaining Biblical approaches to dealing with the emotional concept of fear, shows Black Bart to be the very personification of evil, haunting the Wells Fargo stage lines and being the perpetrator of at least 29 robberies. His misdeeds were carried out during the same period of history that blood was being shed in Arizona.

Black Bart's real name was Bole or Boles and he was born in an obscure corner of the United Kingdom. He appears in California during the gold rush as a gold-panning prospector, then

later in the Civil War on the Union side. Having come to the conclusion that robbery was the best way to get ahead he carefully charted out the roads, times and likely chance of profit in the area directly north of San Francisco. He did not exactly fit the role of the quick-drawing and trigger happy gunmen we will later meet in Tombstone. Like some of those he was a big talker but considered more gentlemanly than the majority of the ruffians at the OK Corral. Pastor Gooderham points out that he never fired a shot. He carried out his robberies on foot as he was deathly afraid of horses. He would appear from behind a tree or cactus, armed with a shotgun, and, standing well back from the horses would say, "Throw down the box". This done, the stage would be waved on. On at least two occasions he wrote poems of celebration and handed them in at the door of the stage before retreating. The poems, though amusing, might be found offensive to the more genteel among us, so will not be reproduced here. To make a long story short, he was eventually caught, did time, and appeared back in California. He was last seen in Visalia, CA. in late February 1888 but left no trace. His disappearance is a complete mystery and myths, tall tales and even ghost stories abounded at the time. One such story had it that he was killed by a shotgun rider whom he had once robbed, another that on turbulent nights in the Bay area, near Alcatraz, he will appear as a zombie with a blood-soaked rag covering one eye. On such occasions he will say nothing. Another belief was that he fled to Canada to be reincarnated from time-to-time as a school superintendent. In these instances he attempts evil but disappears before he can carry out his malicious intent. In Mexico, at midnight on the "Day of the Dead" the laughter of his intended victims can be heard. In any event he was never seen, in the flesh, again.

Such a colourful story of the American West leads us directly to what our THS grads found when they visited Tombstone at least 138 years after the famous shoot-out. The title will be "In Search of Wyatt Earp".

To Be Continued...

MOUNTAIN PINE BEETLE UPDATE

Introduction: Last summer (2019) the Thorsby area from the westerly direction and experienced an inflight of mountain pine beetles (MPB) *Dendroctonus ponderosae*. This winter we have been told there is some trees that have been infected by the MPB. This insect is the most destructive insect pest of the lodgepole pine forest. It is expected that emergence will take place within the next couple of months and a new brood will continue its flight eastward.

What Can You Do?: Alberta Agriculture and Forestry recommends the removal of all pine trees with over 40 pitch tubes. When the MPB population approaches the maximum that the tree can support, the beetles in the tree release a pheromone called verbenone to repel newly arriving beetles. Verbenone can be synthetically produced and acts as an anti-aggregation pheromone which sends the message “No Vacancy”. They should be attached to the north side of the tree between June 15 and July 1st.

Effectiveness: Verbenone has shown to be effective at low to moderate beetle population pressure and is not very effective when the pressure is high. Whether you value your pines as landscape trees or for shelterbelt protection you may want to make the investment to attempt to protect your trees this summer.

The Public Works Department is working on ways to mitigate these nasty critters within Town Limits. Any information please contact me at my Email: wmaclean@thorsby.ca

A Message From ATB Financial for Thorsby

We are in unprecedented times and we understand that everyone has been impacted to one degree or another by the events and fall out of Covid. I want to thank everyone in the community for their resilience, compassion, and respect for one another at this time. With everyone's commitment, we will get through this together.

ATB would like to reiterate our continued commitment to serve our customers and community. Effective March 23rd, we have gone to an appointment only model in Thorsby. We are in the branch answering phones and helping everyone who reaches out to find solutions. It is still cold and flu season and we are running on reduced staff in order to ensure the health and safety of our team members and customers.

We want to ensure your transactional needs are met. As we support social distancing and control traffic, we will be accepting appointments for items that can not be completed through other electronic means or via the telephone. If you have never transacted through any of these channels, we will take the time to ensure you are comfortable and have confidence to complete transactions through those alternate channels. This does not change ATB's role in the community and is only meant to give our customers continued means of banking should there be any future service disruptions due to illness. For our business customers, we are also clearing our night deposits twice per day to ensure deposits reach your accounts in a timely fashion and will continue to accept cash and coin orders to support your continued operation in the community.

We will continue to help support the financial impact to our customers and work with you to find individualized solutions that include payment deferrals on existing credit products for up to 6 months. We also have deferral programs for our existing business customers and are anxiously awaiting details on government support and loan

programs to assist our business customers. If you have any questions over your personal financial situation or need to be set up for a debit card, telephone, internet or mobile banking, please call us at 780-789-3886 or reach out to your Personal Banker or assigned Account Manager directly.

For after hours support, please contact our Client Care Centre at 1-800-332-8383.

Thank you.
Sincerely,
Matt Straker
Community Manager, Thorsby.

Leduc County announces 2020 tax payment postponement

March 27, 2020 This afternoon, Leduc County council announced a postponement of 2020 tax payments and the cancellation of tax and utility payment penalties. The 2020 property tax payment deadline has been postponed from June 30, 2020 to Sept. 30, 2020. Property tax notices will be mailed out in May. As well, penalties for tax payments, water, wastewater and solid waste utility payments, and bulk water accounts payments have been cancelled. These changes are in effect from March 27 to Sept. 30, 2020.

We are all being impacted by COVID-19. Things are changing daily and we are facing new challenges. Worrying about taxes and utility payments should not be one of these challenges. We are here to support our residents and businesses however we can during this unprecedented time. Mayor Tanni Doblanko

On March 11, Leduc County activated its Emergency Coordination Centre (ECC) to coordinate resources and information, and ensure that essential services continue to operate. Operational updates from Leduc County are available online at www.leduc-county.com/COVID-19.

Update COVID-19 Pandemic in Alberta

(April 1 at 5:00 p.m. From Alberta.ca)

Since March 31, an additional 117 cases of COVID-19 have been confirmed in Alberta, bringing the total number of cases in the province to 871. There have been two additional deaths.

Cases have been identified in all zones across the province:

527 cases in the Calgary zone

219 cases in the Edmonton zone

57 cases in the Central zone

51 cases in the North zone

12 cases in the South zone

Five cases in zones yet to be confirmed. Of these cases, there are currently 29 people in hospital, with 13 admitted to intensive care units (ICU). In total, there have been 62 hospitalizations, with 20 admissions to ICUs. Ninety-four of the 871 cases are suspected of being community acquired. There are now a total of 142 confirmed recovered cases.

All Albertans need to work together to help prevent the spread and overcome COVID-19. Restrictions remain in place for close-contact businesses, dine-in restaurants and non-essential retail services. A full list of restrictions is available online.

Albertans are prohibited from attending gatherings of more than 15 people, and they must continue to observe two metres of social distancing. This includes events both indoors and outdoors, such as family gatherings, weddings and funerals. Further details are available online.

Update on special event licences

As a result of the limitation of mass gatherings to a maximum of 15 people, AGLC has temporarily suspended the special event licensing

application process on its website.

People who had planned to host private events and had already purchased special event licences may apply for refunds by emailing sel@aglc.ca or visiting aglc.ca for more information.

Access to justice

The Court of Queen's Bench is encouraging Albertans to access alternative dispute resolution mechanisms for non-urgent matters, including mediation and arbitration. More information: <https://albertacourts.ca/qb/resources/announcements/alternative-dispute-resolution-consent-orders-and-applications-to-enforce-arbitration-awards>

List of essential workplaces

The list of essential workplaces that can continue to operate in Alberta can be found online.

Emergency isolation supports

Emergency isolation supports are available for Albertans who are self-isolating or who are the sole caregivers for someone in self-isolation, and have no other source of income. Applicants can view eligibility criteria and apply at alberta.ca. To carefully manage the flow of applications, we are periodically closing online access to MADI and the emergency isolation support. We will provide daily updates about system availability

Quick facts

The most important measures that Albertans can take to prevent respiratory illnesses, including COVID-19, is to practise good hygiene. This includes cleaning your hands regularly for at least 20 seconds, avoiding touching your face, coughing or sneezing into your elbow or sleeve, disposing of tissues appropriately. Anyone who has health concerns or is experiencing symptoms of COVID-19 should complete an online COVID-19 self-assessment. For recommendations on protecting yourself and your community, visit alberta.ca/COVID19.
