

THE BRETON BOOSTER

FRAUD PREVENTION MONTH RAISES AWARENESS AFTER A HISTORIC YEAR FOR REPORTED LOSSES

*March 2022 Marks the 18th Anniversary
of Fraud Prevention Month in Canada*

Last year was a historic year for financial losses reported to the Canadian Anti-Fraud Centre (CAFC). Based on reports to the CAFC, \$379 million were lost to scams and fraud in 2021, which was an increase of 130% compared to 2020. The continued prevalence of scams and fraud is why the CAFC, Royal Canadian Mounted Police and Competition Bureau are once again joining forces this March leading the 18th annual Fraud Prevention Month.

Increasingly, and especially over the past two years during the pandemic, many of us have turned to online services and devices to carry on with our daily activities. Despite all of the ways the Internet can help us, we need to remain vigilant as we don't always know who is on the other side of our screens. Many fraudsters use impersonation tactics to pose as a trusted source to steal money or personal information. This is why the Fraud Prevention Month 2022 campaign is focusing on impersonation scams.

Quick Facts

- The CAFC estimates that only 5% of fraud cases are reported.
- Based on reports to the CAFC, the scams that resulted in the highest financial loss in 2021 were investment scams, with losses exceeding \$113 million. This was a new trend seen by the CAFC, with a noticeable increase in cryptocurrency investment scams.
- Based on reports to the CAFC, the top five

most reported scams and fraud in 2021 were extortion, phishing, merchandise scams, service scams and vendor fraud.

- By reporting to the CAFC, you are assisting law enforcement by contributing to a national repository of information to assist investigations and support prevention and disruption efforts.
- The CAFC and the RCMP's National Cybercrime Coordination Unit are working together to develop a new national reporting system for individuals, businesses and other organizations to report fraud and cybercrime incidents to law enforcement. The new system is expected to officially launch in 2023-2024.

If you are the victim of a scam, fraud or cybercrime, please contact your local police. It is also essential that you report an incident, whether you are a victim or not, to the CAFC via their Online Reporting System or by phone at 1-888-495-8501.

Community Volunteer Income Tax Program – **FREE INCOME TAX PREPARATION**

For Low Income Persons, Families, seniors and students. Although this is something, that most of us would like to avoid thinking about and doing, I am afraid that this is unavoidable. You need to file your income tax each year, even if you have no income to report. By doing this you may receive benefits that you did not know you were eligible for. Also, in the event of the death of your spouse, benefits can easily be transferred to you, if you have filled a return for the last calendar year. If you did not file a tax return in 2021 you may not be receiving benefits from the government that you are eligible for. The focus of the Community Volunteer Tax Program is to assist those individuals who have limited income. This includes seniors, families and students. If your income was approximately in one of the following categories you may qualify for assistance.

• 1 person	30,000

Counselling Subsidies – Breton and Area FCSS is pleased to offer Counseling Subsidies.

A subsidy is available for individuals, couples and/or families who are struggling with common, everyday issues to access short-term preventative counselling services. The goal is to:

The cost of counselling can be a barrier for many individuals and families. This subsidy is available to those who do not have access to coverage through health benefits or employee benefits, such as an Employee Assistance Plan (EAP), and whose family income is less than \$75,000 per year. Fees are determined according to a sliding scale based on income and family size. Fees range from \$15 per session to \$50 per session. The maximum number of sessions available is seven for individuals and nine for couples or families.

Counselling services are provided through a partnership with Karunia Counselling from Leduc.

We know that in this current environment many may have additional stress and anxiety. We also know that transportation may be an added barrier. These sessions can be arranged to be in person in the Karunia offices in Leduc, over the phone in your own safe environment or virtually on your computer.

To apply for the subsidy services, application forms are available through the Breton FCSS Office at 4916 50th Avenue or by contacting them at fcss@breton.ca or calling 780-696-3636.

Soul Care

I was so excited to attend my first 'real' community event this past weekend! Getting to know our community has been challenging these last few years, so we are thrilled as we are seeing more opportunity to invest and show up!

The event we attended was a fund-raiser for Ukrainian Relief Aid hosted by the Breton Agricultural society. My highlight was not only the fellowship and food, but the surprise live auction of the actual LIVE pig was something I will remember for a long time! As we were leaving, I had overheard that so far, we have raised just over \$18,000! And that little pig alone, raised over 8,000!! It is so wonderful to see our community join in together and make a difference.

This fund-raiser was dear to my own heart and soul and as I watched the Ukrainian dancers perform, it had brought back so many memories. My heart is heavy for what is happening in Ukraine as I not only have friends in Russia, but I also spent time there, volunteering in orphanages and working with the children. In addition to the many different connections I have in Ukraine and Poland, I have dear friends who are missionaries in Moldova. My friend has now fled Moldova with her children, and they are now safe back in Canada, yet her husband who is still waiting for a Visa is there at the boarder volunteering to help with the refugees who are entering into Moldova. Currently there are over 300,000 Ukrainians in Moldova seeking care. All my family and friends are being affected by this war in one way or another. I was born in Slovenia, which is about 1,600 km from Ukraine, now that may seem far but when I spoke to my aunt a few days ago her concern is real, and she is watching closely as to what could happen.

I was humbled to be able to participate in my first community event as it meant so much to me and most importantly, so much to the world. A community that can come together in what was a mere few weeks to host a dinner to provide awareness and then stand together to be able to offer care for the 3.4 million refugees who have left their only home they have every known, is a community with a big heart.

We are excited to be a part of a community with a big heart who showed up, invested, and made a difference.

*******DOOR PRIZES*******

Greetings from Breton Elks Lodge #402

Well, hello everyone. I looked out on the world this morning and decided what a perfect time to make a pot of coffee. Then turn up the thermostat and put pen to paper to tell a story of life in Elksdom.

It is great to note that spring has finally arrived and good old Covid is becoming a distant memory.

Although, no one should forget to exercise good health safety. To all our friends on the front line positions, such as health workers, police enforcement, teachers, firefighters and any other positions. Thank you in a very big way for all your efforts to keep the world on a safe journey to the future.

Along with the arrival of spring, another skate season has drawn to a close. As of March 15 the skate rink has been officially closed. On that note it is time to recognize the assistance that was received this past season. Brother Larry Kilgrain took advantage to enjoy time outdoors with his Grandsons to demonstrate the value and effort of Elksdom in our community. We also need to recognize Shawn, Marv and Marilyn who are not members but came out in support of our efforts. We would also extend a thank you to Sue Fraser of the Breton Royal Purple for her support in this project.

At this time it seems an opportune time to recognize Sue's Grandfather who was our first Exalted Ruler, when Breton Elks first became a Lodge in 1956. For some of the residents, we remember P.J. Seal (Percy) as an employee of Canadian Pacific Railway in the capacity of manager of our train station. So thank you Sue for your continuing support.

Thank you to all Brothers for coming to the need for keeping the ice in fine form. Thank you to Kyle Townsend for the lessons on the flooding, efforts in fine tuning the cleaning and also for his efforts to assemble and manufacture a form of an ice Zamboni. We also need to turn our attention to the support from the Village Office. To all Council members and staff, thank you for your great support. Thank you for replacing lost equipment and repairs to the skate building. It was indeed a pleasure to share the winter experience.

Moving forward to regular business. The Breton Cougar Football Team made a visit to our Lodge meeting. These young men explained their

endeavors to represent our community in the football world, but are in need of financial support. It was agreed by Lodge members to donate \$5,000.00 at this time leaving the opportunity to reassess in September.

A decision to support a community gathering on Good Friday was passed. This exercise will be in support of Breton Ag Society and FCSS. It was noted that April 17-22 will be designated volunteer week with a supper on April 22. Tickets for this event need to be purchased by April 19 from the Village Office. Another request was received for financial assistance by a person with health issues. A motion was passed to donate \$2,000.00 for this cause.

A discussion was held on the reservation program for the R.V. Park. It was noted that progress is being made and the R.V. Park is nearly full for May long weekend.

The new Community Centre now has WiFi service and is proving to be serving well.

The last radio bingo held at Big Tee was another success story. The Elk raffle tickets were nearly all sold.

The Elks annual Provincial Conference will be sponsored by Brooks Lodge June 3 to 5.

The Elks annual National Convention will be sponsored by Sherwood Park Lodge at Nisku July 12 to 14.

This concludes the latest developments in our world of Elksdom. After a heart warming introduction to spring we hope everyone can start looking forward to all the neat spring activities. This would be from scraping mud off the boots to planning spring flower planting. Soon, we should hear the sound of frogs and the arrival of our famous crows.

Until next time everyone stay healthy and wealthy.

Will chat soon. Al

Following are the Raffle Winners from March 12th Radio Bingo at Big Tee.

Travis Pysko	\$100.00
Darren Scott	\$ 50.00
Brenda Campbell	\$ 25.00
John Nickell	\$ 25.00

The 50/50 draw winner was Nellie Winslow

Thank you to all who came out to support this project. As always any profit from this exercise becomes donation money back to our community.

ALBERTA HEALTH SERVICES - PUBLIC SERVICE ANNOUNCEMENT

Albertans invited to have their say on the future of EMS

Albertans have an opportunity to help shape the future of Emergency Medical Services (EMS) in the province through new public consultations.

EMS is a critical component of Alberta's healthcare system, responding to 911 calls, providing emergency care to patients across the province, and handling transfers of patients needing medical care between hospitals and medical facilities.

Alberta Health Services (AHS) is undertaking the creation of a long-term Provincial Service Plan for EMS. This service plan will reflect how EMS integrates into Alberta's health system and provide the vision and direction for EMS in Alberta for the next five years. It will also set out a clear roadmap on how to get there. This plan is to be completed by September 30, 2022.

To do this, we need to hear from those we serve – Albertans. We're asking for your involvement.

In the first step of the process, we invite Albertans to provide feedback to assess the current state of EMS through our engagement website and a survey:

1. First, please visit <https://together4health.albertahealthservices.ca/ems-service-planning> and sign up to subscribe to our project updates so you can take part in current and future EMS engagement opportunities.
2. Then, watch the 30-minute introductory video on Together4Health about the EMS Provincial Service Planning process. This video is optional, however it provides valuable background about EMS.
3. Finally, take the "Current State Survey" available on the website, which should only take about five to 10 minutes. Let us know what you think is and isn't working within EMS so we can build on its strengths and plan for improvements. **The survey will close April 8, 2022.**

Thank you for giving us the opportunity to listen to your feedback as we develop a long-term strategic plan for EMS in Alberta. Please share this opportunity with others so they may also offer their feedback and suggestions.

AHS EMS and Alberta Health is looking forward to connecting with patients and families, frontline EMS staff, elected officials, Indigenous communities, contracted service partners, medical first responders, and other parts of the healthcare system now and over the coming months.

Alberta Health Services is the provincial health authority responsible for planning and delivering health supports and services for more than four million adults and children living in Alberta. Its mission is to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans.

Preacher's Point from Pastor Jeff Gooderham

After the American Civil War, the managers of the infamous Louisiana Lottery approached Robert E. Lee and asked if he'd let them use his name in their scheme. They promised that if he did he would become rich.

Astounded, Lee straightened up, buttoned his gray coat, and shouted, "Gentlemen, I lost my home in the war. I lost my fortune in the war. I lost everything except my name. My name is not for sale, and if you fellows don't get out of here, I'll break this crutch over your heads!"

The Bible reminds us that there is a name that is above every name. A name that brings with it the power to protect, to heal, and to save. In the book of Philippians chapter 2 verse 10 it says; "That at the Name of Jesus every knee will bow, those in heaven, those on earth, and those under the earth, and every tongue confess that Jesus Christ is Lord, to the glory of God the Father." The word everyone includes you and me, we can bow now in humility and enter into life, or we can bow later in defiance and enter into judgement. The choice is ours.

RECOGNIZING ALBERTANS WHO PRESERVE OUR HERITAGE

**Nominations are now open for the 2022
Alberta Heritage Awards.**

The Alberta Heritage Awards recognize the outstanding achievements of Albertans engaged in heritage preservation, protection and promotion. Seventy awards have been presented since the program was reintroduced in 2005.

"From Fort McMurray to Fort McLeod, our province is rich with resources that speak to Alberta's history and culture. It is important to protect and preserve our history for future generations. These awards are a wonderful way to thank Albertans who put their time and effort toward preserving our history. I am very excited to see who Albertans nominate this year." Ron Orr, Minister of Culture

Albertans can be nominated in three categories:

- Heritage conservation
- Heritage awareness
- Outstanding achievement

Individuals, organizations, corporations and municipalities can be nominated for an award. The guidelines and nomination forms can be found on the Heritage Awards web page.

The deadline for nominations is June 1. The 2022 recipients will be recognized at an awards ceremony in September during Alberta Culture Days.

The Bible Truth Page

The Word of God

The Word of God, which can be found written in the Bible, is not just an old story. The Word of God is alive and powerful. It is the Word of Life. The Word of God is truth, so it can't be changed, nor does it need to change. The heavens and the earth were created by the spoken Word of God, and they remain to this day. God said, "Let there be light," and there was light and there is still light to this day. The Word of God is forever settled and established in heaven, and it lives and abides forever. The Words of God are Spirit, and they are life. The Word of God is a sword in the realm of the spirit. The Word of God is life and health to all your flesh. They that hear, believe, and do the Word of God are blessed in their spirit, soul, and body forever. It works effectively and lives in those who believe it. The Word of God does what He sent it out to do. God has exalted His Word above His name. The Word of God is Jesus Christ. **In the beginning was the Word, and the Word was with God, and the Word was God. He was in the beginning with God. All things were created through Him, and without Him nothing was created that was created. In Him was life, and the life was the light of mankind** (*Modern English Version* John 1:1-4).

For the word of God is alive, and active, and sharper than any two-edged sword, piercing even to the division of soul and spirit, of joints and marrow, and able to judge the thoughts and intents of the heart (Heb. 4:12). That which was from the beginning, which we have heard, which we have seen with our eyes, which we have looked upon, and our hands have touched, concerning the Word of life-- the life was revealed, and we have seen it and testify to it, and announce to you the eternal life, which was with the Father and was revealed to us (1 John 1:1-2). Jesus said to God, "Sanctify them by Your truth. Your word is truth" (John 17:17). Jesus said, "The scripture cannot be broken" (John 10:35). By faith we understand that the universe was framed by the word of God, so that things that are seen were not made out of things which are visible (Heb. 11:3). God said, "Let there be light," and there was light (Gen. 1:3). Forever, O LORD, Your word is established in heaven (Psalm 119:89). For you have been born again, not from perishable seed, but imperishable, through the word of God which lives and abides forever (1 Peter 1:23). It is the Spirit who gives life. The flesh profits nothing. The words that I speak to you are spirit and are life (John 6:63). Take the helmet of salvation and the sword of the Spirit, which is the word of God (Eph. 6:17). For they are life to those who find them, and health to all their body (Prov. 4:22). But He said, "Indeed, blessed are those who hear the word of God and keep it" (Luke 11:28). For this reason we thank God without ceasing because, when you received the word of God, which you heard from us, you received it not as the word of men, but as it truly is, the word of God, which effectively works also in you who believe (1 Thes. 2:13). I have written to you, fathers, because you have known Him who is from the beginning. I have written to you, young men, because you are strong, and the word of God lives in you, and you have overcome the evil one (1 John 2:14). So shall My word be that goes forth from My mouth; it shall not return to Me void, but it shall accomplish that which I please, and it shall prosper in the thing for which I sent it (Isa. 55:11). I will worship toward Your holy temple, and praise Your name for Your lovingkindness and for Your truth; for You have exalted Your word above all Your name (Psalm 138:2). He is clothed with a robe dipped in blood. His name is called The Word of God (Rev. 19:13). The Word of God never gets old or out of date. It is essential that we read His Word every day, "For length of days and long life and peace will they add to you" (Prov. 3:2).

LETTERS TO THE EDITOR

To the Editor:

In a recent letter submitted by this writer, the issue of "Ratepayers' Hour" was mentioned. This issue is now on the agenda for the next meeting (March 22) to remove the time for citizens' input.

Keep in mind that part of their (Brazeau County Council) Mission Statement includes the word "innovation." Not all Councils have such an hour for ratepayers' concerns. Previous councils showed leadership and innovation many years ago when they instituted Ratepayers' Hour. In the preface to many agendas, a stated council Goal reads "Brazeau County is responsive to its citizenship [sic]. ..." Under Values is stated "We (Brazeau County?) respect our citizens through active listening ..."

Some other thoughts: In that same preface, the following statements appear-- under Mission: "our residents first;" Under Values: "Transparency"; under Code of Ethics: "a county councillor . . . is to be accountable . . . to the public: A councillor . . . endeavors to earn the respect and confidence of the public."

Furthermore, the ACT (MGA) states in Section 153, e 1 that councillors "adhere to the code of conduct established...."

Removing Ratepayers' Hour goes against all of the above (nor does such a move seem to be very democratic).

If listening (and responding positively) to citizen concerns is such a problem that you want to remove "Ratepayers' Hour," why did you run for council in the first place? If councillors are so troubled by voter concerns coming their way, then resign—it only takes a piece of paper, the day's date, two words (I resign), your name, and your signature. An alternative would be to return the amount of money (about \$1500) that you receive every month to deal with citizens' concerns.

Lynn Oberle
Brazeau County

Follow the science,
We've all heard it over and over again, especially through the mouth of our politicians.
It makes us think of busy white robed men and women in laboratories, checking the contents of glass containers, writing down data and facts. Looking through microscopes to define the mysteries of life.

They find cures for illnesses or at least treatments, they find out the best rubber for our tires, summer and winter. With our modern metals, the Titanic would still be with us, the hull would have dented and not ripped. It is really experimentation and observation, monitoring closely the result of the new invention. All around, they make life better, more comfortable and safe. Good for those. Other scientists work on the most effective bombs, Zyklon-B gas, as used in the chambers of Auschwitz, and further on to advance different biological and chemical weapons, and other war related paraphernalia, a lucrative business indeed. I wouldn't be surprised that that is the reason the east likes to buy oil from the middle-east, in return they now buy stuff from them. Alberta would only buy skidoo's. Also history is pulled into the realm of science. This is an area a bit like math, math is clear cut, $2+2=4$, nothing else. It gives a collection of facts, how do you interpret fossils, ruins, sedimentary rock, etc., even though history shows facts, there is mostly nobody around to ask about that long bygone time, we depend on written documents. Stone tablets go back around 4000 years. Scientists are able to translate the age old Sumerian script and Egyptian Hieroglyphics into proper English.

Other scientists find out that cells in living matter are immensely complex and to be honest cannot come to any other conclusion than that there is intelligent design in all of nature. The only problem is; this is not the narrative, which is billions of years of survival of the fittest. From mud and lightning to primitive fish, salamanders, mice followed by Apes and at last Homo-Sapiens, Humans. Conveniently forgetting where the division between male and female occurred, (which is quite necessary for reproduction in plant, animal and human life). This kind of science is called pseudo-science. It has no relation to reality, it is theory, speculation and assumption. Imagine, our smart-phone the result of an explosion?

The facts of our history are safely hidden in the archives of the Bodleian Library; Oxford UK. Known as the "Tysilio Chronicle". In it is the written lineage of some of the British and Scandinavian Royalty going all the way back to Japhet the son of Noah, whose Art is still with us lodged in the eternal ice on mount Ararat in Turkey. ("After the Flood" by Bill Cooper B.A.) There is much more to say about all that, but for now all I want to say is; we must take science with tongue in cheek at times and certainly when it comes to "invisible" viruses. They do and say what their paymasters want them to say. They are normal men and women, with the same ambitions, passions and beliefs as all of us, and not necessarily filled with integrity or honesty because of their white garb.

Fritz Luten
