

THE BRETON BOOSTER

Greetings from Breton Elks Lodge #402

Well hello everyone once again. It appears that our friendly weatherman has finally found some wonderful summer weather for us. Now that July 1st has come and gone it is time to look forward to other fun action, like BBQ, cutting grass and perhaps a camping trip or two.

We do, however, need to keep our memories of July 1st in mind. It has been brought to my attention that a couple of facts of great importance were sadly overlooked and I deeply apologize.

First, I was not aware that our hard working and very devoted fire department members were involved with the setting up of chairs and tables. Thank you very much for this very important task.

Second, we are blessed as a community to have a group of young men and women who are devoted to bringing attention to our Village as members of the Breton Cougars football team. These folks take their commitments very seriously with early morning practice sessions in some very undesirable weather at times. Along with their efforts to represent our community with the skills required for the chosen sport, they also endeavor to develop their skills in citizenship as well. Our community is very proud of these young people. This group has also demonstrated their eagerness to become involved with activities such as July 1st.

Thank you to all members of this club for your much appreciated assistance in helping with clean up in the new kitchen, the dining section of our new centre and to some degree the mixing of pancake batter. Once again thank you to Breton Cougars and all the best to each moving forward. Al

JULY UTILITY BILLING

Due to the village getting new water meter reading software the water consumption has been estimated from November 2021 to June 2022. With the new software finally in place the June billing has brought the water consumption reads up to date with actual reads instead of estimated. Some properties may see water consumption credits due to the actual amount used being less than the estimate.

Sorry for any inconvenience.

Counselling Subsidies

Breton and Area FCSS is pleased to offer Counselling Subsidies.

A subsidy is available for individuals, couples and/or families who are struggling with common, everyday issues to access short-term preventative counselling services. The goal is to:

- Improve relationships with better communication and conflict resolution skills;
- Improve mood with anger management and emotional support;
- Enhance personal growth with creativity, spirituality, self-esteem, self-awareness, goal setting;
- Improve parenting skills by focusing on attachment;
- Reduce stress with life balance; and/or
- Learn new skills and behaviors

The cost of counselling can be a barrier for many individuals and families. This subsidy is available to those who do not have access to coverage through health benefits or employee benefits, such as an Employee Assistance Plan (EAP), and whose family income is less than \$75,000 per year. Fees are determined according to a sliding scale based on income and family size. Fees range from \$15 per session to \$50 per session. The maximum number of sessions available is seven for individuals and nine for couples or families.

Counselling services are provided through a partnership with Karunia Counselling from Leduc.

We know that in this current environment many

may have additional stress and anxiety. We also know that transportation may be an added barrier. These sessions can be arranged to be in person in the Karunia offices in Leduc, over the phone in your own safe environment or virtually on your computer.

To apply for the subsidy services, application forms are available through the Breton FCSS Office at 4916 50th Avenue or by contacting them at fcss@breton.ca or calling 780-696-3636. **ALL APPLICATIONS ARE STRICTLY CONFIDENTIAL.**

Breton and Area FCSS will be doing the intake of the applications. Counselling services are provided by Karunia Counselling by Registered Psychologists, Registered Provisional Psychologists, Canadian Certified Counsellors and Masters or PhD level student interns under the supervision of a qualified psychologist. All applications will be kept in strict confidence. Please contact us at 780-696-3636 or fcss@breton.ca for a application package or more information.

Save the Date – Thursday September 22 – Celebrating Breton – This evening will bring our community together to see all of the great business, non-profit and recreation opportunities. We invite any groups, home business or store front businesses to join us. There is no fee to participate, registration forms available from the Village office. Only one vendor from a company business will be accepted) i.e., Thirty-One Bags, Tupperware, Pampered Chef etc. Please contact us for more information or email fcss@breton.ca for a registration package.

“TABBY LOOPS THE LOOP” On the Lighter Side of History

by Allan Goddard, Breton Museum

There have been numerous stories written about the D R Fraser Lumber Co. and their time in the lumbering industry around the Breton area from the mid 1920's to the mid 1950's. However, stories from the past do not need to be dry and filled with historical facts. I recently came across a short news story from the Edmonton Journal dated October 20, 1934. The headline reads, “Tabby Loops the Loop”.

It appears that the D R Fraser Lumber Co. had a camp cat which located itself on the inside rim of a large 12 foot diameter flywheel ... that's 3.6 metres for the younger readers. This flywheel provided power to all the moving parts of the sawmill through a series of shafts, pulleys and belts from the steamer. Maybe the cat decided to take a nap in the sun on the inside rim of the flywheel, no one knows, after all it was a cat. The mill's steam engineer fired up the mill for a period of 75 minutes. The story indicates that this flywheel turned at a speed of 100 revolutions per minute. So, if I do the math correctly, the poor cat went around and around 7500 times.

After a 75-minute run the engineer stopped the flywheel, and as the tremendously heavy wheel slowed to a stop the engineer noticed a peculiar-colored spot on the inside rim of the huge wheel. Upon closer examination he realized that it was the camp cat. The poor tabby had to be jarred loose with the toe of his boot, at which time the cat headed to the tall timber.

This is where the news article ended, but did the cat come back? I have to wonder what the cat would have said about its ordeal, if it had been interviewed. I would like to imagine the quote would have been... “I AM NOT HAPPY”. As the children's song goes... “The cat came back... the cat came back the very next day ... he just wouldn't stay away”. Who says that museum people don't have a sense of humor.

Soul Care

My regular Booster reflections are on pause as this morning I am at Covenant Bay Bible camp! I have been here most of the week and am excited to be a part of this camp ministry.

My main role will be providing pastoral care for the staff and students if needed. Spending the summer working at camp can be fun but also draining and at times exhausting. So, I spend time with the staff and help them to find time to breathe and give them encouragement to continue to journey.

I am so excited to be a part of this story once again. My journey at Covenant Bay Bible camp started 20 some years ago as a camp counsellor, so it is such a privilege to be back as the pastor on staff.

And the best part is my oldest is here at camp and my youngest is at the day camp, so it is so great to be here together.

I will be back with my Poland reflections next week!!

In the meantime, spend some time with Jesus, step back and take a breath, be mindful of where you are in your life and appreciate your family and friends. I also encourage you to go out and do something you love today!! Take advantage of the beautiful warm days, take the time to reach out to someone and always be kind.

Check out the camp at www.covenantbay.ca

God is good.
