

THE BRETON BOOSTER

A TRIBUTE TO VANT HAYES HIS LEGACY LIVES ON

submitted by Allan Goddard, Breton Museum

The Breton Museum was deeply saddened to learn of the passing of Vant Hayes on November 8, 2023, at the age of 87. For the majority of his life Vant and his wife Ethel resided on their farm northwest of Breton. Over the years Vant was a loyal supporter of the Breton Museum. A natural born storyteller, Vant brought to life not only his life's story but the story of the Hayes family. How his parents struggled to establish themselves in a new land after leaving harsh social injustices in Oklahoma during the early 20th century. As the manager of the Breton Museum, I will always be very appreciative of the time Vant took to come to the museum, often on fairly short notice, to be interviewed or talk to students. You couldn't help but be enthralled by the stories Vant told.

On Friday November 17 family, friends and the community gathered to pay their last respects to Vant, and to express their condolences to his wife Ethel, daughters Peggy and Christie along with their families in the loss of a cherished husband, father, grandfather and great grandfather. Numerous condolences posted on line described Vant Hayes to a T: always smiling and talking to people, a humble man, a man with a giving heart and kind soul, his devotion to Ethel, a caring and compassionate farmer and a man who could see the lighter side of life with his sense of humor. Even though Vant isn't here to tell the stories personally anymore, his legacy will live on in the many interviews that were conducted with him over the years.

One of the last interviews Vant did was with Donna Paris in March of 2022. Donna Paris interviewed Vant as a part of her series of podcasts called "in the black canada". Donna had contacted the Breton Museum about setting up an interview with Vant. Vant's interview was the first of several interviews Donna conducted with family descendants of the black migration from Oklahoma to Alberta and Saskatchewan 110 years ago. In July 2022, Donna along with photographer David Ofori-Zapparoli travelled to western Canada to do additional interviews and to photograph the interviewees. At that time, Donna and David visited with Vant and Ethel on their farm. From those interviews an art exhibit was developed in

partnership with the Oklahoma Contemporary Arts Centre in Oklahoma City. The exhibit is a selection of 12 black and white photographs of the interviewees, along with oral history audio clips from the interviews and supporting archival material. The Breton Museum also provided an artifact included in the exhibit. A mule shoe found on the homestead of Vant's Uncle Rolla Ramsey is on loan to the Oklahoma Contemporary Arts Centre until April, 2024. The exhibit is titled: "Descendants of the Black 1000: Flight from Oklahoma Black Towns to Canada." The exhibit explores ... "the events that led those seeking freedom to leave Oklahoma and find refuge in Canada."

The exhibit opened November 9th, the day after Vant's passing. Donna in her opening remarks, at the exhibit opening artist talk, delivered a moving tribute to Vant. The artist talk can be viewed by going to YouTube and searching Oklahoma Contemporary Art Centre: Black 1000. How proud Vant would have been to see the opening of the exhibit. It is through exhibits like this that Vant's legacy will live on. Rest in Peace my friend.

Drayton Valley-Devon Constituency

Last week, Alberta celebrated a court's confirmation that the federal Liberals' climate policies are unreasonable and unconstitutional. Over a year ago, Alberta contested the federal government's decision to label plastic as a 'toxic substance,' arguing it's an unconstitutional intrusion into provincial jurisdiction. In a recent ruling, Justice Angela Furlanetto deemed it "unreasonable and unconstitutional" to classify all plastic products as toxic, emphasizing that the federal government acted beyond its authority. The court clarified the principles of cooperative federalism, stressing the provinces are not subordinate to the federal government.

Premier Danielle Smith and Minister Rebecca Schulz pointed out that Ottawa's policies jeopardize thousands of jobs and billions of investments. Alberta's petrochemical sector, with over \$18 billion in projects, faces unnecessary risks due to federal overreach. This marks the second instance in two months that the Liberals' climate policies were rejected by the highest courts.

The United Conservative government continues to oppose damaging federal policies, contrasting with the Notley NDP, whose attempt to rebrand after the recent court decision reflects their denial of responsibility for economic and environmental policies. Despite their efforts, the NDP's history and policies remain clear to Albertans, reinforcing why they can't be trusted to lead the province.

Premier Smith and the United Conservative team are attentive to Albertans' needs, working to maintain the province's leadership in economic prosperity, freedom, and opportunity. Alberta is back, and efforts will persist to uphold this status.

Last week was also Constituency week and it was busy! I attended many stakeholder meetings and community events. On November 15th, I attended the Metis Flag Raising Ceremony in Drayton Valley hosted by the Metis Local #888. It was an honor to be invited to attend such an important event. On November 16th, I also was honored to attend the Louis Riel Commemorative Day at the Legislature. There was an amazing turnout for the Louis Riel Commemorative ceremony and listening to the speeches was such a unique experience.

It was a privilege to be invited to Senator Elect, Pam Davidson's event with the Ambassadors for Moldova and Croatia, the High Commissioner from Zimbabwe and federal Conservative MPs. I also attended events at the Enoch Nation Reserve, NAIT for The Next in Trades event, and even got an informative and comprehensive tour of the Genesee Power Plant.

With three weeks left in session, I am looking forward to being in my constituency more. Please know that you can contact my office if there are events in your area that you would like for me to attend.

As always Thank you for your trust and God Bless!

I can be reached at the main constituency office in Drayton Valley at 1-800-542-7307 toll-free. The office is open Monday to Friday. The Devon constituency office number is 780-987-3666 or I can be emailed at draytonvalley.devon@assembly.ab.ca anytime.

Christmas Wishes

*From Breton
Christmas Volunteers*

Once again Christmas is approaching and before we know it, it will be here. The Breton Christmas Wishes Society volunteers are gearing up to help needy families in the community. Our society covers Breton and area and the Brazeau County area east of the North Saskatchewan River, excluding those areas covered by other groups. We help families who are financially in need at this time and/or those who have children under the age of 16 years who are living at home. Consideration is also given to families who are without children living at home and are on a fixed income. Our goal is to help those who may not have the means to provide a Christmas meal and provide gifts for their children.

Donations of non-perishable food may be made at any of the local businesses in Breton. We will have our totes/boxes in the stores and schools in Breton starting this week. We also will have donation cans in the businesses who do not have a tote.

Referrals can be made by schools, churches, social agencies, neighbors, friends, or even the recipient. If you know of someone who may be in need or needs some extra help this year and would like to make a referral please contact one of the above agencies or call/text Diane Wilson at 780-514-4273. Referrals are taken on a yearly basis.

We, the Breton Christmas Wishes Society volunteers, thank everyone in the community for their generosity. Watch the paper for referral deadlines.

KNOW YOUR PERSONAL RISK FOR HEART ATTACK & STROKE

Alberta Health Services Public Announcement

Albertans aged 40-75 will now be able to find out what their risk of having a heart attack or stroke will be in the next 10 years using a new cardiovascular disease (CVD) risk screening tool and a simple blood test ordered by their health provider.

Enhanced Lipid Reporting (ELR) is a new, easy-to-use, lab-based approach to calculate CVD and stroke risk that ensures those at risk receive early treatment.

When your doctor does your screening, you will get a score that tells you how likely you are to have a heart attack or stroke in the next 10 years if you do not make any changes to reduce your risk. Patients will also receive their CVD risk results in their MyHealth Records account.

You and your doctor can use this personal screening score to plan and take steps to lower your risk and help prevent a heart attack or a stroke.

Everyone has some level of cardiovascular disease risk. Men are usually diagnosed with CVD between 55-64 years of age; and women between 65-74 years of age.

CVD is the second leading cause of death in Alberta, and the number one cause of death for women. Every hour, 12 Canadians over the age of 20 with heart disease die. Managing your risk is important for your health and quality of life. Many heart attacks and strokes can be prevented through healthy lifestyle changes and medication when risk is known. Identification of those who are at risk of CVD is an essential first step.

Knowing your personal risk of cardiovascular disease and stroke can help you act to lower your risk by making healthy lifestyle changes and taking prevention medicines. Talk with your healthcare provider to create a plan to help manage any health conditions.

Your risk can be influenced by factors such as:

- tobacco use
- blood pressure
- cholesterol levels
- diabetes
- family history
- activity level
- drinking alcohol
- eating habits
- stress levels
- weight

Where to get help to lower your risk? Starting to make these changes can seem overwhelming and it can be difficult to know where to start. As a first step, talk to your doctor.

To learn more about prevention, connect online to the many supports and resources, including patient videos,

guidance on talking with your doctor; the CVD risk screening tool, making lifestyle changes, and more. Heart attacks and strokes are a serious medical emergency, and delaying treatment can have serious consequences. Knowing the signs of a heart attack or stroke and acting fast is important.

Alberta Health Services is the provincial health authority responsible for planning and delivering health supports and services for more than four million adults and children living in Alberta. Our mission is to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans. Our current focus is on reducing emergency department wait-times, improving EMS response times, increasing access to surgeries, and improving patient flow.

LETTERS TO THE EDITOR

To the Editor:

A few months ago, Brazeau County Council approved a request to allow a gravel extraction company to take out a piece of county road in order to remove the gravel underneath. As part of the deal, the company would replace that road when extraction was done. A "temporary" road was built around the gravel site and possibly/probably was not built to county standards as it was meant to be "temporary."

Recently, the same Council agreed to allow the company to NOT replace our road, and the company was allowed to give the temporary road in lieu. Additionally, the temporary road (apparently) is considered to be more subject to flooding than the original.

The MGA makes it clear that . . . decisions are for the benefit of the county . . .

How does this action serve the best interest of county residents? How much is this action going to cost the county? What did the county receive during extraction for the resource (which belongs to us)?

Ask your councillors how they justify the give-away.
