

# THORSBY TARGET

## BIG WIN FOR THE THORSBY MIDGETS!

It was a packed house as the Mustangs U18 team battled with their local rivals, Winfield U18 in a playoff game on March 3! It was an intense game but the Thorsby defeated Winfield 6-2.

The Midget Mustangs had already beat the Battle River Knights on February 27, 5-4 then throttled Edson 10-2 on March 5. They had a tough loss against Wabasca on March 6 losing 3-4 but still have a chance to win it all. Their final playoff game is Saturday, March 19th at 9am in the Winfield Arena against Wabasca.

## \$17,000 GRANT FOR MINOR HOCKEY

*by Jennifer Ball (Fundraising Coordinator)*

Thorsby Minor Hockey Association was fortunate enough to receive a grant from Hockey Alberta and The Edmonton Oilers Community Foundation. The main purpose for this grant is to support minor hockey programs and initiatives. Thorsby Minor Hockey is in the process of purchasing some much needed on ice training aids to help the development of our skaters. Along with that, on ice skills sessions, family financial support and coaching support and training has also been a major focus of this grant.

Thorsby Minor Hockey Association would like to thank Hockey Alberta and the Edmonton Oilers Community Foundation for this opportunity to make minor hockey in our community better.

## PROVIDING MORE ACCESS TO SUICIDE PREVENTION SUPPORTS

**Alberta's government is providing additional funding for community organizations supporting youth mental health and suicide prevention.**

The new youth suicide prevention grant program is accepting applications from community organizations until April 8. Local youth-focused organizations know their communities well and do important work to support the mental health of Alberta's youth. These grants will build on the work they are already doing to support youth mental health.

*"As young people continue to navigate the unique challenges caused by the pandemic, it is more important than ever that they feel heard, valued and supported. This funding will help youth community organizations continue to do the important work of supporting the mental health of at-risk young adults."* Rebecca Schulz, Minister of Children's Services

Funding totalling \$3 million will focus on making sure young Albertans have access to effective suicide prevention supports and services, providing access to evidence-based training for those who support young people and reducing stigma through awareness campaigns so that youth and families are more likely to seek help related to suicide.

In 2019, the Government of Alberta launched Building Strength, Inspiring Hope: A Provincial Action Plan for Youth Suicide Prevention 2019-2024. This program will help advance the outcomes laid out in the plan and continue the work that has been achieved over the last two years.

### Quick facts

Alberta's government is already taking steps to help children and youth navigate the past couple of years:

- The Child and Youth Well-being Review examined the impacts of COVID-19 on children and youth and provided recommendations to government to help create a cross-government action plan.
- The government committed \$7.3 million over three years to support the expansion of youth mental health hubs.
- Annual funding of \$1.25 million was allocated for a 12-week Youth Recovery Program at Hull Services.
- Jack.org's Alberta COVID-19 Youth Mental Health Resource Hub provides accurate mental health information and resources for youth.

# BREAKING NEWS!!

## SCHOOL CROSSWALK

School time is busy for parents and students and the busy times are mornings and afternoons when everyone is excited to get home after School.

The Town of Thorsby and Black Gold School Division are always interested in safety and for the next few weeks we will be monitoring the School Crosswalk in the morning and afternoon at 48 Ave and 52 Street. We will also be gathering data on how many vehicles and students use the intersection.

Our Mayor and Council and our administration are very aware of the intersection congestion and are looking at potential solutions to reduce it and manage the risks to students, parents and the travelling public.

So, Say hi to us in our Bylaw vehicle and if your kids want to have a look in the vehicle we certainly can let them have a look.

# HOCKEY HISTORY

## Larry Creighton

Submitted by Kelley Probe  
Recreation & Culture Manager  
Town of Thorsby

So, I sat down with Larry Creighton today and listened to a few of his stories. Such a neat history!

He's originally from Calgary, AB and has been playing hockey since he was 6 years old. He played Jr A hockey for the Medicine Hat Tigers and then received an invite to try out for Boston University's hockey team. If he made the team, he'd have all expenses and tuition taken care of. He didn't have enough money to get to Boston, so he began a journey of hitchhiking across the country. It took him 10 days to get there but he made the team, became Captain, and graduated with a Commerce degree (1956-59). While at Boston University, he also played for their baseball team for 2 years.

After Graduation, Larry moved to Edmonton and continued his education becoming a lawyer. He continued to play senior men's hockey throughout his entire life and these last 2 Covid years are the first time he has missed a season since he was 6 years old! He is now training for a men's tournament in Kamloops where he'll be playing in the 45+ division...not the 70+ or 80+ division. Crazy!!

Larry's stats from BU are: 46 games, 43 goals, 51 assists, 94 total points. For comparison to current days, Jack Eichel also went to BU and his stats are 40 games, 26 goals, 45 assists, 71 total points. Larry was and still is an

amazing player!

Larry was born May 11, 1935 (87 yrs old) and currently resides in Westeros, AB.

Here is a great article:

*Larry is a familiar face at the Thorsby Arctic Spas Recreation Complex*

**LARRY CREIGHTON '59.** Forward Larry Creighton co-captained the 1958-1959 team to a 13-8-2 record. Creighton and his fellow co-captain, defenseman Ron DiVincenzo (who went on to become the highly successful coach of the Brookline High School program in Massachusetts), provided solid leadership for a team that put the foundation in place for the team's NCAA run the following season. Creighton narrowly missed the Boston University Century (100-point) Club, with 43-51-94 in 46 career games.

## MLA REPORT

from The Office of MLA Mark Smith,  
Member of the Legislative Assembly  
for Drayton Valley - Devon

More than 350,000 Albertans are of Ukrainian descent, including several in the Alberta Legislature. When fighting in Ukraine began, the government wasted no time in acting to support the people of Ukraine, by contributing a total \$10.3 million to support aid in Ukraine. This included \$5 million donated through the Ukrainian World Congress to equip 5,000 members of the Ukrainian Territorial Defence Force with defensive equipment, including flak jackets, helmets, bulletproof vests, first-aid kits, night-vision goggles, communications equipment, and essential fuel.

Ukrainian Albertans have contributed so much to our province's communities, culture, and economy, so I'm glad we could contribute to the effort in Ukraine at a time when support is most needed.

With European countries dependence on Russian oil and gas the war in Ukraine is proof that the world needs more Canadian oil and that our country must build energy infrastructure and boost oil exports. Alberta is a rights-respecting liberal democracy with the third largest energy reserves in the world. We can be a major force for global stability by displacing conflict oil from Russia and other dictatorships with Alberta oil. Albertans are some of the most generous people on earth. For all those wishing to donate to the humanitarian efforts in Ukraine, please visit the Canada-Ukraine Foundation donation portal at [www.CanadaHelps.org](http://www.CanadaHelps.org)

The situation in Ukraine has put a damper on the good economic news in Alberta, but I still want to update you on some exciting announcements that have happened in our province ever since the government tabled a landmark balanced budget.

The pandemic has highlighted a need to expand our healthcare system and increase capacity.

This past week, we announced that Budget 2022 will grow Alberta Health's total operating expense budget by \$600 million this year and by a total of \$1.8 billion by 2024-25. This will ensure we have the capacity we need to protect patient care and prepare for future health care demands.

We also announced this week that Budget 2022 contains an increase of more than \$700 million over the next three years to support teachers and to address cost pressures in schools, as well as \$110 million in new funding for the next three years to support the mental health and wellbeing of Alberta students.

We also found out this week that Budget 2022 includes about \$2.5 billion over three years in support of our new childcare agreement with the federal government. I am proud to report that since this agreement was announced, Drayton Valley- Devon families are experiencing lower costs for childcare, which remains on target to average \$10 per day by 2026.

Finally, earlier this week, we announced that Budget 2022 invests almost \$3.7 billion, a 6.3 per cent increase over last year, into continuing care programs and services for seniors and vulnerable Albertans. It also earmarks \$204 million in capital funding over three years to modernize existing continuing care facilities across the province and develop new continuing care spaces for Indigenous Peoples.

With our balance sheet back in the black, the lowest taxes in Canada, and essentially all restrictions now lifted – Alberta is starting to feel like Alberta again. Nowhere is this truer than in Drayton Valley-Devon.

I look forward to providing you with more updates soon.

Mark Smith, MLA for Drayton Valley – Devon

### The TOPS Ten Things We Can Learn from Olympic Athletes

1. Fitness is not a destination. It's a journey. We see the Olympians when they're well down the road, but most of them have devoted many years to get where they are. Like them, we must start at the beginning.
2. Improvement is the goal. Olympic athletes are working hard all the time to shave a fraction of a second from their time, and the closer they get to their goal, the more difficult that becomes. They never settle.
3. Stay healthy. You can't win the game or finish the race if you're not healthy, so you have to take good care of your body in every respect.
4. Winning (or, in our case, losing) is as much about training the mind as it is about training the body. Mental discipline is key for athletes and for TOPS members. We must train our minds before our bodies can follow.
5. People will put forth a great amount of effort for a medal (or pin or pinette, or charm, or certificate). Awards and recognition matter -- not for what they are, but for what they represent.
6. You can't do it alone. Olympic athletes get lots of support from their teammates,

family, friends, coaches, and others.

7. Great athletes don't always make the qualifying round. Just as a world-class sprinter may miss a spot in the finals by 1/100th of a second, we may have days when the scale just doesn't reflect the hard work we've done.
8. Just as Olympians suffer sprains and strains, we may also run into problems. But, a surgery, pregnancy, or broken bone doesn't have to derail us long-term – although, temporarily, it may mean sitting on the sidelines or scaling back our goals.
9. Even Olympians have off days...hurdlers trip, sprinters make false starts, and gymnasts fall off the beam. But they always get up and try again.
10. Olympians never give up on their dreams. Some want to win the gold medal, while others just strive to finish the race. But, whatever the goal, they give it all they've got.

**Gerald Soroka, MP**

**Launch of the Canada  
Digital Adoption Program**

OTTAWA: Gerald Soroka, Member of Parliament for Yellowhead, wishes to advise the federal government's launch of the Canada Digital Adoption Program. The \$4-billion package of grants and loans is aimed at encouraging small and medium-sized businesses to expand their online presence. The program includes \$1.4 billion in grants and advisory services and up to \$2.6-billion in loans.

Applications for both grants and loans opened on March 3, 2022.

Smaller businesses with at least one employee can apply for a \$2,400 "micro-grant" to offset costs such as website development, search engine optimization, subscription fees for e-commerce platforms and social media advertising.

A larger "Boost Your Business Technology" grant worth up to \$15,000 will be available to companies with revenue between \$500,000 and \$100-million and fewer than 500 employees. The grant can be spent in areas like new customer software, digital inventory management systems, network security improvements and robotics.

In addition to the grant programs, companies can apply for an interest-free loan of up to \$100,000 from the Business Development Bank of Canada for digital adoption spending.

The government has partnered with Magnet, a not-for-profit organization, to place up to 16,800 students and young Canadians with businesses. The program involves a wage subsidy to employers of up to \$7,300 to retain a post-secondary student or recent post-secondary graduate.

## The Bible Truth Page

### The Parable of the Hailstorm

The Kingdom of Heaven is like a father calling to his son, saying “Come in the house son! There is a severe hailstorm warning!!! The weather app says there could be baseball sized hail!!!” Unfortunately, his son would not listen to him. He didn’t believe there was a need to go in the house, and he was enjoying the great outdoors. The dad continued, “Look at those rolling green clouds!! I see a wall of rain and hail on the other side of the house. Come in quickly! The door is open and the house is solid, come and take shelter.” But it was no use. His son was 18 years old now and able to make his own choices. The son would not come in. Immediately the wall of hail swept over the house and the young man. Huge balls of ice bounced off the ground and smashed tree branches. With the sudden arrival of the storm the young man ran into the trees for shelter, but the trees didn’t protect him. He was struck on the head and fell to the ground.

Beloved, the scenario of this sad story is very real, and it is what our Father in Heaven watches every day. He is offering shelter from the storms of life on earth and eternal death. He has sacrificed His own Son Jesus, to give us forgiveness of sin, and eternal life with Him. Yet every day, people whom He loves refuse to accept His offer. Every day some of those people die, without knowing the love He has for them, nor accepting the deliverance that He has provided for them. Like the father in the parable, God is inviting us in. He has provided shelter and freedom from eternal death. It is up to us to choose to follow Him and accept eternal life. Our only hope of salvation is through faith in Jesus Christ. Like the father in the parable, God doesn’t take life from people whom He loves. Their destiny is a result of their own choices.

Here are some scriptures that show our Father’s heart: **Just as Moses lifted up the serpent in the wilderness, even so must the Son of Man be lifted up, that whoever believes in Him should not perish, but may have eternal life. “For God so loved the world that He gave His only begotten Son, that whoever believes in Him should not perish, but have eternal life. For God did not send His Son into the world to condemn the world, but that the world through Him might be saved. He who believes in Him is not condemned. But he who does not believe is condemned already, because he has not believed in the name of the only begotten Son of God. This is the verdict, that light has come into the world, and men loved darkness rather than light, because their deeds were evil. For everyone who does evil hates the light and does not come to the light, lest his deeds should be exposed. But he who does the truth comes to the light, that it may be revealed that his deeds have been done in God”** (Modern English Version John 3:14-21). I speak in human terms because of the weakness of your flesh, for just as you have yielded your members as slaves to impurity and iniquity leading to more iniquity, even so now yield your members as slaves to righteousness unto holiness. For when you were the slaves of sin, you were free from righteousness. What fruit did you have then from the things of which you are now ashamed? The result of those things is death. But now, having been freed from sin and having become slaves of God, you have fruit unto holiness, and the end is eternal life. For the wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord (Rom. 6:19-23). Jesus said to him, “I am the way, the truth, and the life. No one comes to the Father except through Me” (John 14:6). Our God is a good God. He wants what is best for us. Every human has sinned, and that is why God implemented His dept forgiveness program, through the sacrifice of His own Son. The door is open. Just accept His offer and come in.

# LETTERS TO THE EDITOR

To the Editor;

Well, another year has come and gone looking for a place to live. We have been offered many places. There is a common theme. They are made from 1950 - 70's and are run down due to lack of maintenance. Even some 80's and 90's are the same. They need a total renovation from the outside to inside. Starting with insulation, windows etc. To inside floors, walls etc. There were some exemptions, but they were put up for sale at the same time rent. They sold within days. We need an influx of new/newer fully renovated houses that are priced so everyone can afford them. This latest housing sales boom does not help the rental market. There are a lot of people that cannot afford the latest rents. Housing is not a privilege, but a necessity. Proper, up to code, housing is needed from apartments/condos to town houses to single family accommodations that have four walls, yard around, and not shared with another family (priced affordable). This is the state of our accommodations that are being offered.

Eric Lindstrom

Dear Editor,

How the police undermine their own authority and respect.

The oath the police officer takes before they start their career is to protect the citizens of the country against crime and enemies inside and outside the country. They get paid out of the government coffers which in turn are filled with tax dollars of the working citizens. I am sure they never imagined that in a Free Canada, they would have to protect the citizens from the government itself.

Now for two years already, we are battling an enemy within, An enemy who insists on taking away our freedoms and replacing it with a socialistic state structure in line with Russia and China. For many years we have seen, over and over again, that human life in such countries has no other value than what it can produce. Our Red Ottawa is pursuing this vehemently under unjust "Castreau" with his liberal/NDP/conservative coalition. We as Canadian citizens are not enamored. As I said before; freedom to us is as important as food and drink. The Police get orders from higher-ups.

Orders to break the oath they pledged at the beginning of their career. No doubt all of them got into the force with the most noble of intentions. To protect us against burglary, road idiots, domestic violence and other harmful conduct that goes around in a sinful society. What has happened in those years of service? They are faced with a difficult situation - stand up to the authorities above them and risk losing their job, one they need to feed their own family, or bend so that they can continue their career.

We stand up against those endless restrictions that come from demon controlled Ottawa, but now they are aided by our own police force that seems to have lost its moorings and has turned against its own citizens they are supposed to protect. They block help to the truckers who stand there to demonstrate because of unlawful border closures, we must be free to cross this border between the US and Canada, the two biggest trading partners. They childishly vandalize track-hoes, (I suggest the ones that did this pay for the repairs out of their own pocket). The OPP (Ontario Provincial Police) behaved in a way that reminds one of the KGB, pulling an old man out of his pick-up truck for honking his horn in support of the truckers, what if he was a strong 35 year old? Oh yeah, and no jerry-cans of fuel to the truckers, they should not stay warm for the night. How puny can you get? The list can go on and on, like busting into someone's home for saying something positive about the rally on twitter. Now don't get me wrong, there are very many police officers that did put their careers on the line by not blindly obeying all the orders from higher up, for which we are indeed very thankful. We could be quite a bit more pummeled by authority if they had not.

Nevertheless, it takes some doing to keep the respect and trust of the people, show character, righteousness and openness. Your authority is in integrity, not in a uniform and standing on the wrong side of the fence. Don't be like the German soldiers with the excuse; an order is an order. You can't get away with that before the Great Judge of all the earth. If Ottawa's orders are against your pledge, you cannot obey them. You have the backing from "Us the People".

Fritz Luten
