BRETON MUSEUM UNVEILS SUMMER EXHIBIT JULY 1ST

submitted by Allan Goddard, Breton Museum

Welcome to the Breton Museum as we gear up for our 2024 summer season. Katelyn, our museum assistant, has been busy developing an exciting new summer exhibit this past month. This summer, the Breton Museum will pay tribute to a Breton family that has had roots in the Breton community for just over 100 years. The exhibit delves into the life and times of George G. and Ida Impey's family, and their decision to migrate to Alberta. The story starts in what was then called British East Africa, now Kenya.

View archival photographs and documents, supplied by family members, of the Impey's family life in Africa and trace their travel route as they leave Africa. Travelling via the Indian Ocean, the Red Sea and

through the Suez Canal and the Mediterranean Sea to Marseilles, France. Then leaving the water and travelling by train through France and on to England, where they again boarded a ship bound for Quebec City. The final leg of the journey was again made by train from Quebec City, arriving in Edmonton in October of 1922. While some branches of the family have spread to many destinations throughout the world, there are still members of the family seven generations later that reside in the Breton community.

Take time over the summer month to view this interesting story of moving to a new land.

- * If you hold a registration night for your group this could be done at the same time.

BRAZEAU COUNTY COUNCIL APPOINTS CAO

BRAZEAU COUNTY, June 18, 2024 — Brazeau County Council is pleased to announce the appointment of Rudy Friesen as Chief Administrative Officer, effective Monday, July 15, 2024. Council made the appointment at today's Council meeting.

Mr. Friesen comes to Brazeau County with over two decades of leadership experience in the event, facility and municipal industries. Most recently he has served as the CAO at Bowden, AB. He's been involved in many key aspects of importance to the County, including asset management, capital development and regional and rural economic development. As well, he brings a well-developed relationship with other levels of government. He was raised in and started his professional career in the agricultural industry, and still maintains a strong connection to primary production agriculture, most specifically the beef sector.

"Council looks forward to working with Rudy to do the work of Brazeau," Reeve Bart Guyon says. *"He has a great background in government and economic development that will help us to make the County an even better place to live, work and play."*

"It is an honour to be chosen by Council to provide this important leadership role to the County," Mr. Friesen says. *"I look forward to a strong working relationship with Council, Administration and the community at large, to continue to advance the objectives of the County for the benefit of the residents it serves."*

LIMITING DISTRACTIONS IN ALBERTA'S CLASSROOMS

June 17, 2024 Alberta News

To safeguard student mental health and reduce distractions, new standards will limit the use of personal mobile devices in classrooms and social media on school networks.

Personal mobile devices and social media are becoming more present in all aspects of life and Alberta's classrooms are no exception. While these can be useful tools to support learning, feedback from more than 68,000 parents, teachers, education partners and students, identified that personal mobile devices and social media can negatively impact student achievement and mental well-being.

Based on that feedback, Alberta's government is establishing standards that will be implemented by September 1 to ensure personal mobile devices and social media do not disrupt learning.

"Parents, teachers, students and our education partners were clear that the use of personal mobile devices and social media in the classroom was of concern. We're taking a measured approach to protect students by restricting the use of personal mobile devices during instructional time to reduce distractions and bullying, maximize learning time and support student mental health." Demetrios Nicolaidis, Minister of Education

The new standards on personal mobile devices will establish restrictions, enforcement procedures and exceptions for Alberta's K-12 public, separate, francophone, public charter, independent school authorities and early childhood services operators. Exceptions will be made provincewide for students using mobile devices for health and medical needs, to support specialized learning needs and for educational purposes.

"The ATA is pleased to see that the government's direction reflects ATA policy in keeping students focused on their learning while balancing situations when technology can be used to meet medical and learning needs or outcomes. Teachers and school leaders look forward to having the support of government and school boards as they implement this new policy." Jason Schilling, president, Alberta Teachers Association

"I am pleased to see Alberta's government move forward with limitations to the use of personal mobile devices and social media in schools. Research is showing us ways that they can negatively influence student success and mental health. This initiative will support schools in addressing those areas of concern and help our students get the most out of their education." Dr. Michael Boyes, developmental psychologist, Department of

Psychology, University of Calgary

School authorities will implement locally developed policies and procedures for the use of personal mobile devices and social media in their schools. These policies and procedures must reflect provincial standards but will still allow areas of autonomy and flexibility to meet the unique needs of the communities and students they serve.

School authorities will share details on their policies and rules with parents and guardians over the coming weeks and months.

Quick facts

- Alberta school authorities currently have the autonomy to set their own policy on how students use cellphones in schools. Policies vary widely across the province.
- In recent years, Ontario, Quebec and British Columbia have all announced provincewide restrictions or bans on cellphone use in schools, with certain exceptions in place.
- Alberta Education engaged with students, parents and education partners.
 - A survey for parents and school stakeholders received more than 68,000 responses. Almost 90 per cent of respondents shared concern over student cellphone use at school.
 - Diverse education stakeholders took part in two virtual engagement sessions.

“DISCOVER WETASKIWIN COUNTY WEST”

June 20, 2024, Joint News Release

Province of Alberta Awards Grant to the Joint Economic Development Initiatives (JEDI) for “Discover Wetaskiwin County West”

For Immediate Release – The County of Wetaskiwin’s Economic Development Organization, JEDI, is proud to announce that it has received a Small Community Opportunity Program grant from the Province of Alberta for the unique project, “Discover Wetaskiwin County West.” This initiative, supported by the Leduc, Nisku, and Wetaskiwin Regional Chamber of Commerce, aims to develop a comprehensive digital platform that will showcase the diverse agriculture, business, and tourism offerings in the hamlets of Winfield, Buck Lake, and Alder Flats.

The project, aptly named “Discover Wetaskiwin County West,” will serve as a digital gateway to the region, showcasing the richness of rural life and the abundance of local attractions. The platform will feature engaging content, detailed sections on local activities, dining options, accommodations, upcoming events, and a ‘Plan Your Trip’ feature to ensure a seamless visitor experience.

By bringing together local communities, businesses, residents, and the Chamber, “Discover Wetaskiwin County West” aims to create a one stop shop for the west end of the County, while showcasing each hamlet individually on the platform. This effort will encourage information sharing and community engagement, generating excitement around the unique offerings of Winfield, Buck Lake, and Alder Flats.

“Discover Wetaskiwin County West” captures the spirit of agritourism, showcasing the region’s rural charm and heritage. This initiative not only aims to attract tourists but also to boost the local economy by encouraging relocation, investment, and business opportunities. Tourists will uncover the potential for a quality rural lifestyle, fostering further interest in the area. It invites exploration, engagement, and appreciation of the County, while supporting local businesses and promoting sustainable community development.

About JEDI

JEDI is dedicated to supporting the growth and prosperity of local businesses in the County. By fostering strong partnerships and promoting economic development, JEDI plays a vital role in enhancing the quality of life in the region.

MIRACLE PRAYER

Dear heart of Jesus, in the past I have asked many favors, this time I ask you this special one (*mention your favor*) Take it dear heart of Jesus and place it within your heart where your father sees it. Then in his merciful eyes it will become your own favor, not mine. AMEN.

Say this prayer 3 times for 3 days and your favor will be granted. Never been known to fail. Must promise publication of prayer.
