

THE BRETON BOOSTER

EPIDEMIC OF ONLINE CHILD SEXUAL EXPLOITATION

Submitted by Jennifer Olson-Ross, Family Wellness Worker CYC, BA (Psych.)

“Remember the man in the big white van? These days, stranger danger is online. The man (or woman) is navigating the same online platforms kids are on – the big white van is their phone, computer or gaming device. Regardless of the tactics used to interact and lure online, the individuals targeting youth are criminals. Remember – it’s never the child’s fault for being sexually exploited online” ALERT (Alberta Law Enforcement Response Team, Internet Child Exploitation Unit)

What is Online Child Sexual Exploitation?

There have always been people who prey on vulnerable children and youth. But now, the internet can help them do it anonymously and from a distance. Online child sexual exploitation is when children are tricked into seeing or participating in online encounters of a sexual nature. Online child sexual exploitation is a growing problem across Canada, and parents need to be aware of what it is, how to protect children from it, and how to teach them to recognize potential risks and stay safe online. (Gov. Canada Presentation: Online Child Sexual Exploitation) What we are specifically talking about is predators just waiting online for children with the intent of luring, coercing, grooming or capping them for the purposes of pornography, sextortion and/or trafficking.

How big of a problem is it?

More than 80% of child sex crimes start on social media.

There are as many as **five million** predators on the internet and at any given time, about 500,000 actively pursuing children and youth -Culture Reframed-

In the last 10 years we have seen a **616% increase** in online child sexual exploitation (Not in My City).

Internet Watch Foundation found that **Canada is 3rd in the world** for hosting internet-based child pornography (Central Alberta Child Advocacy Centre).

The Canadian Centre of Child Protection operates to assist with any internet-based sex crimes involving children and facilitates www.cybertip.ca and **processes over 100,000 reports every month**, and reports that:

- **4.3 Million child sexual exploitation reports** processed by www.cybertip.ca from 2014–2020 in Canada
- **88% Increase in sextortion and other online exploitation** reports to www.cybertip.ca since the pandemic began
- **39% of luring attempts** reported to www.cybertip.ca in the last 2 years involved **victims 13 or under**
- **1 in 3 luring attempts** reported to www.cybertip.ca happened on Instagram, Snapchat or Kik Messenger (34%) (Government of Canada Infographic Online Child Sexual Exploitation)

Specifically In Alberta: The ALERT ICE (Internet Child Exploitation) unit reports that they have processed over **17,829,592 photos/videos of child sex abuse materials** since April 2018 and seized an average of **1,574 computers a year** during child sexual exploitation forensic investigations in Alberta.

Community Information Night - Celebrate Breton & Chili Cook Off - Tuesday September 24 2024.

This will be a time for community members to plan their fall activities, volunteer commitments and know of all the services available in and around our community, along with learning about the great businesses we have in our area. Breton FCSS will be coordinating this evening. We are adding a twist to this year's event and inviting any groups/businesses that would like to be a part of a Chili Cook Off. The Cook Off is organized by the Breton Ag Society. Save the date. More details will follow.

This evening is designed to do the following:

- * To give your agency / organization the opportunity to let the community know who you are and what services and/or purpose you give to the community and surrounding area.
- * If you hold a registration night for your group this could be done at the same time.
- * If your agency is in need of recruiting new members or volunteers this would be a time for community members to see what groups are operating and decide where they would like to commit some of their time.
- * Promote your business or services that you provide to the area. Use it for staff recruitment.

More details coming soon. We look forward to showcasing all of the great businesses, groups and opportunities that evening along with the Cook Off being judged by the community members attending.

EPIDEMIC OF ONLINE CHILD SEXUAL EXPLOITATION

by Jennifer Olson-Ross - continued....

Help keep your kids safer online - Learn the dangers

1 > Grooming

Grooming is when someone builds trust with a child, and sometimes the adults around them (including parents), to gain access to and control the child by normalizing certain behaviours and expectations.

A groomer might use the following tactics

- Approach your child online by pretending to be someone they are not – may falsely identify themselves as a person from school, or someone their age, to build a connection
- Talk about the child's friends or interests, give gifts and compliments
- Make promises of a better life, a loving relationship, or future gifts, money, drugs or alcohol
- Cause division saying "your parents are too strict" or "your parents don't understand you"
- Normalize sexual behaviours by showing the child sexual images or videos
- Sexualize the relationship by sending or asking for your child to record and send sexual images or videos
- May threaten or pressure your child to do what they ask, which could lead to sextortion
- May ask to meet your child in person

2 > Sexting and Sextortion

Sexting is when your child creates, sends or shares sexual messages, images or videos with friends, people they know or even strangers online. Older kids may think it is harmless, especially with someone they know or like, but once an image is sent, it is out of their control and it can end up hurting them or someone else.

Sextortion is a type of blackmail where someone threatens to send a sexual image or video of your child to friends, family or other people if they don't provide more sexual content, pay them or do what they ask.

www.cybertip.ca receives an average of **10** **SEXTORTION** reports per day.

Typically, boys are extorted for **MONEY**.

Girls are extorted for **MORE IMAGES**.

When genders were known, **90% OF SEXTORTION VICTIMS** have been male.

Sextortion demands for money often come from international organized **CRIMINAL NETWORKS**.

79% OF SEXTORTION incidents occurred on **Instagram or Snapchat** (Canadian Center of Child Protection)

3 > Capping

Capping is when someone, typically an adult, records or screenshots youth they target on various video streaming platforms or applications getting naked or engaging in sexual activities — often without the victim knowing they are recording the video chat. They may share this video with others, or use it to sextort their victim.

A capper might use the following tactics

- Approach your child by pretending to be someone they are not — often someone around your child's age
- Take your child to a private chat or less secure platform to video chat
- Often use video clips and specialized software to make a convincing "bait video" to trick your child into having a conversation with them
- Trick or coerce your child into taking off their clothes or engaging in sexual activities on camera, sometimes by promising to do the same
- Capture the video — cappers can be so fast that kids don't even know it has happened to them

EPIDEMIC OF ONLINE CHILD SEXUAL EXPLOITATION

by Jennifer Olson-Ross - continued....

4 > Exposure to sexually explicit material

In this context, "sexual images and videos", refer to unwanted pornography or other sexual videos and images (not user-generated content of underage youth). It can be of real people, cartoon or computer generated. Youth might see it in an online ad, accidentally come across it in their internet searches, or be shown it by one of their friends (Government of Canada Presentation: Online Child Sexual Exploitation).

Everywhere kids are, so is mainstream, violent porn

A Canadian study done with 470 adolescents reported that 98% of them had been exposed to pornography; the average age of first exposure was around 12 years, and one-third were exposed as young as by the age of 10. One in five youth experience unwanted online exposure to sexually explicit material and one in nine youth experience online sexual solicitation. (Alberta Health Services Fact Sheet: Child and Youth Problematic Online Pornography).

Hardcore, explicit porn is widely available. It can be easily accessed from any device with an internet connection including phones, tablets, game consoles, and even e-readers.

Much of pornography is misleading, degrading, and objectifying. That's a dangerous trifecta that shapes kids' perception of consent, sexual violence, gender equality, sexuality, and intimate relationships at an extremely young age and without any context.

Porn sites get more monthly visitors than Netflix, Amazon, and Twitter combined

44% of males ages 11-16 who saw hardcore porn said it gave them ideas about the type of sex they wanted to try

88% of porn scenes contain sexual violence against women (Culture Reframed).

5 > Child Sex Trafficking

Child sex trafficking is the act of coercing, luring or engaging a child under the age of 18 into a sexual act and involvement in the sex trade or pornography with or without the child's consent in exchange for money, drugs, shelter, food, protection, affection, perceived love/belonging or other necessities. Trafficking for the purpose of sexual exploitation occurs when there is a clear abuse of power by a third party: recruited, controlled to provide sex services against one's will (Not in My City)

Human Trafficking is THE fastest growing crime in Canada (Not in My City).

Many traffickers prey on victims who are looking for the promise of a better life, a job opportunity or a romantic relationship. Sex traffickers approach potential victims in

a variety of ways, including pretending to be a potential boyfriend or friend, contacting them via social media, posting newspaper or Internet ads for jobs and opportunities, or even threatening or kidnapping them. Often, false promises will be made to the victims about money, new clothes, work or education opportunities, financial aid for their family, etc.

Increasingly, traffickers are turning to online message boards, social media websites, private messaging chat apps, shopping centers, and other public places to recruit victims. Traffickers often connect with children online and begin the process of grooming and luring. They look for vulnerabilities or holes in a young person's life and try to fill them. (The Centre to End Human Trafficking).

OREGON MAN FACING FEDERAL CHARGES IN ALLEGED ABDUCTION, ABUSE OF 13-YEAR-OLD EDMONTON GIRL

FOUR TEENS RESCUED FROM HUMAN TRAFFICKING

Four teens have been rescued following an ALERT Human Trafficking investigation in Edmonton. Two men and a 17-year-old face a total of 48 charges...“These youths met their perpetrators over social media and were lured and groomed into working in the sex industry. As is often the case, there are a bunch of false promises of money, relationships, gifts, but those never seem to materialize and these survivors endure tremendous hardship,” said Staff Sgt. Chris Hayes, ALERT Human Trafficking....see full story at **Central Alberta Online** (Posted: November 30, 2023)

EPIDEMIC OF ONLINE CHILD SEXUAL EXPLOITATION

by Jennifer Olson-Ross - continued....

What Parents and Caregivers Can Do

Based on recommendations from Developmental and Behavioural Paediatrician at Yale University, Dr. Justin Rowberry from Defend Young Minds

1. **Set Boundaries** -It is absolutely critical for your child's safety and mental health. Do not allow unlimited, unsupervised use. If you as a parent or caregiver have allowed unlimited digital use but now want to reduce access and don't know how to make that change, you can find solutions by viewing the free video series on reducing digital overuse at: www.defendyoungminds.com/post/new-video-series-digital-overuse-solutions-expert-pediatrician **If there is ever a time while decreasing digital media overuse that your child exhibits thoughts of harming themselves or others, seek professional help immediately.*
2. **Have a Training Focus** - Start children with a text/call only phone. Then gradually allow adding an app. As the child demonstrates capacity * still have time limits on it
3. **Have Freedom from Technology Time** - Use Auto shut offs, especially at night
4. **Have a No Screens in Bedrooms Rule** - Especially at night, this has been shown to be the is the most important thing a parent can do to protect their children
5. **Free time on Technology must be EARNED** - Teach children to complete their responsibilities (such as chores, homework, etc.) first
6. **Be a Good Role Model** - Place restrictions on your own phone and let them see you do it. Practice good digital etiquette by not being on your phone during conversations and family mealtime. Turn off social media notifications and have a place for your phone to be set down, don't carry it around with you at all times.
7. **Wait until Eight** - Do not allow social media access until your teen has demonstrated the ability to deal with the violent pornography, unrealistic pictures, predation and hostility that they will inevitably find online. Developmentally, this is normally at or around grade eight. Studies show limiting social media to ½ hr/day is important to protect their mental health once you decide to allow it.
8. **Talk to your kids** - Let them know you are available for them to talk to, tell them they can always come to

you or another safe adult if they have made a mistake. Talk to them about online safety, privacy, establishing boundaries, healthy relationships, and consent

9. **Tell them about resources** like www.cybertip.ca and www.NeedHelpNow.ca and www.kidshelpphone.ca in case they are worried and do not want to come to you. 

Additional Resources For Parents

1. Common Sense Media- Media recommendations and advice for families
2. Protect Young Eyes- Resources to create safer digital spaces for kids
3. Defend Young Minds- Educational resources for parents and professionals
4. Social Awakening- Digital Wellbeing guidelines and educational resources
5. "Like", "The Social Dilemma" and "Childhood 2.0"- Excellent documentaries to watch with your teens (recommend parents view first to decide if it is appropriate for your child's age and maturity level).

If you want to get involved and help make the online world a safer place for children, I encourage you to visit The Canadian Center of Child Protection Website at: www.protectchildren.ca/en/get-involved/demand-change/

JUNE HIGHLIGHTS:

Breton RCMP investigate fatal collision

Alder Flats, Alta. – On June 25, 2024, at approximately 2:14 p.m., Breton RCMP received a report of a serious collision involving a Dodge RAM truck and a Ford Ranger at the intersection of Highway 13 and Highway 22 in Wetaskiwin County, Alta.

Breton RCMP attended and Emergency Medical Services and Fire Services were already on scene. The 87-year-old female driver of the Ford Ranger was pronounced deceased at the scene. The 36-year-old male driver of the Dodge RAM was uninjured.

Although the collision is still under investigation, Breton RCMP's preliminary investigation indicates the RAM was heading northbound on Highway 22 when it collided with the Ford Ranger that entered the intersection.

Alberta RCMP wish to extend our condolences to the loved ones of the deceased.

Mulhurst, Alta. - On June 8, 2024, Thorsby RCMP received a report of a female in distress. Members canvassed the area and located a female (38), resident of Mulhurst Bay, with multiple injuries. Further investigation lead to the arrest of the aggressor.

As a result of this investigation, Veronica Bannert (52), a resident of Mulhurst Bay, has been charged with the following:

- Assault Causing Bodily Harm

Bannert is scheduled to appear in Breton Provincial Court on July 10, 2024.
