

# THE BRETON BOOSTER

## JASPER DEVASTATION

Our thoughts are with those affected by the Jasper fires. This tragic act by mother nature has turned the lives of the people of Jasper upside down but has also had an impact on people around the globe offering support. What a great world we live in, where in times of need, so many are there to help!

The Jasper National Park Facebook Page has done an incredible job of communicating information over the last week. Here is some of the information posted.

*Jasper Wildfire Complex Update:*  
Current as of July 26 12:40 pm ▲

Assessments of infrastructure damages is ongoing. The damage within the townsite is estimated at around 30%. Out of a total of 1113 structures within the town, 358 have been destroyed. All critical infrastructure in Jasper was successfully protected including the hospital, emergency services building, both elementary and junior/senior schools, activity centre and wastewater treatment plant. We are grateful to our wildfire teams efforts to contain the fire and minimize the damage.

*Jasper Wildfire Complex Update:*  
Current as of 1:00 PM, July 29, 2024 ▲

### Wildfire Status

While the wildfire remains classified as out of control, no significant growth has been reported as of this morning.

Additional firefighting resources have arrived from the Province of Ontario to support ongoing fire suppression efforts. Crews continue to extinguish hotspots where feasible and will be moving into new areas including outlying commercial accommodations and Parks Canada campgrounds.

### Alberta Day for Caring for Jasper

The Canadian Red Cross has organized a province-wide bottle drive on July 31st as part of their

Alberta Day of Caring initiative. Albertans wishing to donate their bottles can say "these are for Jasper" when dropping off to any Bottle Depot on Wednesday, July 31st.

Through this campaign, the Government of Canada and the Government of Alberta will match every dollar donated by Canadians to the Canadian Red Cross 2024 Alberta Fires Appeal. This means that every \$1 donated will become \$3 to support those affected by the wildfires. Eligible donations already received will be matched.

### Highway Status in Jasper National Park

As the wildfire continues to actively burn and smoulder along Highway 16, the highway remains closed at this time. Incident staff are working to develop plans to reopen Highway 16 when it becomes safe to do so. More information will be shared when the situation changes.

### Access to areas not directly impacted by the fire

As the wildfire situation in Jasper remains very much active, it continues to pose a threat to public safety in adjacent areas. All available resources are committed to this emergency.

Jasper National Park remains closed to the public and under evacuation order.

### Community Information Night - Celebrate Breton & Chili Cook Off - Tuesday September 24

This will be a time for community members to plan their fall activities, volunteer commitments and know of all the services available in and around our community, along with learning about the great businesses we have in our area. Breton FCSS will be coordinating this evening. We are adding a twist to this year's event and inviting any groups/businesses that would like to be a part of a Chili Cook Off. The Cook Off is organized by the Breton Ag Society. Save the date. More details will follow.

This evening is designed to do the following:

- \* To give your agency / organization the opportunity to let the community know who you are and what services and/or purpose you give to the community and surrounding area.
- \* If you hold a registration night for your group this could be done at the same time.
- \* If your agency is in need of recruiting new members or volunteers this would be a time for community members to see what groups are operating and decide where they would like to commit some of their time.
- \* Promote your business or services that you provide to the area. Use it for staff recruitment.

More details coming soon. We look forward to showcasing all of the great businesses, groups and opportunities that evening along with the Cook Off being judged by the community members attending.

**THE AUGUST 7 BRETON BOOSTER WILL BE DELIVERED A DAY LATER THAN NORMAL DUE TO THE LONG WEEKEND.**

### EVERY FAMILY SHARES A STORY

## From Africa to Alberta

### The Impey Family's Transcontinental Journey

#### Part 2: A Life Together Begins

We left off the first installment of the Impey Family history with a fortune teller telling Ida Pringle she... ***"would marry the man you love and have a long life"***. So, we pick up the story from there.

For a period of two years after Ida left school, she was a housekeeper for an aunt who lived in Cradock. Ida writes that while at Cradock she attended lots of dances and played tennis, but missed her family. After the death of her aunt, she returned home to her parent's farm called Tembani, in the Stutterheim District. After a few months home, Ida moved to Ailsa to live with another aunt and teach her children.

In her memoir Ida doesn't go into much detail how she and George Grey met, other than to say she met George Grey at a dance. Ida also mentions she was engaged to George while teaching at Ailsa. After a courtship of two years, they were married at Ailsa on the farm of her aunt Mrs. Robert Hart in 1886.

George and Ida's first child, a son, William was born in 1888. Shortly after William's birth they trekked up to Aliwal North to a farm that was owed to Dr. Sam Impey, a brother of George's. This venture proved to be a failure. They moved on from Aliwal North, headed to George's brother Gordon Impey at Barkly. Ida writes about this journey, and the many challenges they had in reaching Gordon Impey's farm. Their hired help abandoned them on the journey, leaving George and Ida to drive their livestock and the wagons. At one point George took the wagon and oxen via the road and Ida herded the sheep across country to meet up with the wagon later in the day. After reaching their destination, George went to work on a sheep farm lambing, shearing wool and transporting wool to market for a period of time.

Prior to George and Ida's marriage, her parents had moved to East Griqualand and purchased a farm. George and Ida decided to relocate. Ida writes... ***"We left Rifle Spruit on New Years Day, a Dutchman we knew there begged us not to go on New Years Day saying if you do you will always be travelling... and it looks like he spoke true"***. At East Griqualand they rented a farm, built a house, planted a garden and started an orchard. However prices were poor, George did find some employment with local farmers, but while it was hard times, they managed.

After a number of years on this farm, George and Ida decided to move to what was known as Rhodesia. By this time the family had grown to five children: William, Pringle, Alan, Effie, and Collin, who was just a few months old. Again, they experienced poor roads and weather, at one point they were caught in a heavy downpour. Ida in her memoir tends not to attach dates to her writings. However, we can from other sources determine this trip took place late in the year of 1894. Near the town of Heidelberg their young son took sick, a minister was located and they baptised their son Collin Campbell, but were unable to access medical care for their young son.

On December 24 they arrived at Boxberg where George's brother Dick Impey resided. They would travel by train to spend Christmas Day with George's parents, in nearby Johannesburg. Sadness soon came stalking the Impey family, on New Years Eve baby Collin passed away in his mother's arms and was laid to rest the next day.

While further adventures and challenges will rise up to meet George and Ida along with their growing family, we will stop here. Look for the next chapter soon.

# CRAZY ALBERTA FACTS ABOUT NATURAL DISASTERS

from [www.mustdocanada.com](http://www.mustdocanada.com) by Matthew G. Bailey,  
December 29, 2020

1. First off, Alberta has had more natural disasters than any other province in Canada.
2. In 1914, for example, Alberta was home to the worst mining disaster in Canada, which killed 189 people in the Crowsnest Pass back in June 1914.
3. Also in the Crowsnest Pass, Frank was home to Canada's deadliest landslide, which occurred on April 29th, 1903, when the top of Turtle Mountain slide down and buried the town beneath it. Oddly enough, the Native Americans in the area warned of the "moving mountain" and always refused to camp below it. Today, it's a historical site with a wonderful interpretive centre and jaw-dropping views.
4. A fun and equally sad fact that also came out of the Frank Slide was a mule named Charlie. This mule was buried under the rockslide and actually survived for an entire month by eating the bark off of the timber supports and drinking from pools of water. That's the fun part. The sad part is that after he was rescued, the mule died due to being overfed oats and brandy from the rescuers.
5. The largest fire in North American history was the 1950 Chinchaga fire in Alberta, which covered 1.4 million hectares (3.5 million acres). The smoke from the fire covered the Eastern seaboard of the USA and was seen as far away as France.
6. In 2019, there was a 4.6 magnitude earthquake in Red Deer and these were associated with the process that created the Rocky Mountains.
7. In 2016, a massive fire struck Fort McMurray, which led not only to the largest wildfire evacuation in Alberta's history but also the costliest disaster in Canadian history. More than 88,000 people were forced from their homes, assisted by firefighters, the Canadian Forces, and the RCMP. The fire destroyed 2,400 homes and buildings. The fire spread across approximately 590,000 hectares (1,500,000 acres).

# Laurie's Laughs

When you can't afford to go anywhere but all your friends are posting cute vacation pics...

I took my suit to the cleaners, who wanted to charge me \$40, so I gave it to the charity shop next door. They cleaned and pressed it and put it in the window. I bought it back for \$15.

**SO I'VE BEEN BARKING FOR 20 MINUTES AND YOU KEEP TELLING ME TO SHUT UP AND YOU KEEP IGNORING ME ..... ANYWAY YOUR CAR IS GONE!**

A group of Canadians was traveling by tour bus through Holland.

As they stopped at a cheese farm, a young guide led them through a process of cheese making, explaining that goat's milk was used.

She showed the group a lovely hillside where many goats were grazing. These, she explained, were the older goats put out to pasture when they no longer produced.

She then asked, "What do you do in Canada with your old goats that aren't producing?"

A spry old gentleman answered, "They send us on bus tours."
