

THE BRETON BOOSTER

TAKING A STAND AGAINST ANTISEMITISM

Alberta News, January 27, 2025

Students will learn about the realities of antisemitism in the new draft grades 7 to 9 social studies curriculum.

Since Oct. 7, 2023, when the Jewish community in Israel faced its largest targeted and deadly attacks since the Holocaust, antisemitism has been on the rise around the world. There is no place for hate, discrimination and racism in Alberta and the classroom is no exception. To make sure all students, including those from the Jewish community feel safe, welcomed and cared for in the classroom, Alberta's government will ensure that the new draft grades 7 to 9 social studies curriculum will teach students about the prejudice that groups face.

As part of curriculum development, Alberta's government engaged extensively with education partners and Jewish organizations in 2023-24 to inform the development of social studies curriculum. Later this winter, additional engagement will begin to ensure that inclusion of this content in the new curriculum will enable students to take a stand against rising antisemitism.

"I firmly believe we must do everything possible to combat rising antisemitism and educate young Albertans about the realities of antisemitism. Ensuring all students learn about the injustices faced by those who historically were, and continue to be, marginalized, or who have experienced discrimination will help us confront hate and build stronger communities."
Demetrios Nicolaidis, Minister of Education

The inclusion of antisemitism in the new draft grades 7 to 9 social studies curriculum builds upon the Alberta government's commitment to have students learn about injustices faced by those who historically were, and continue to be, marginalized, or who have experienced discrimination. In November 2023, Alberta's government made Holocaust education a mandatory component of the social studies curriculum and the newly developed

draft K to 6 social studies curriculum also includes content on antisemitism.

"The Calgary Jewish Federation applauds Alberta's government for taking meaningful action in combating the spread of antisemitism through this critical initiative. We also look forward to continuing to work with Alberta's government on the implementation of Holocaust education in our schools." Rob Nagus, chief executive officer, Calgary Jewish Federation

"The Jewish Federation of Edmonton commends the Alberta government for both reaffirming its commitment to mandatory Holocaust education and for equipping students to take a stand against rising antisemitism. By ensuring these critical lessons are part of the learning experience for students, we are fostering empathy, understanding and resilience in future generations. We look forward to further collaborating with Alberta Education in making sure these important teachings are delivered effectively across all grades." Stacey Leavitt-Wright, chief executive officer, Jewish Federation of Edmonton

Alberta Education will continue engaging with the Calgary Jewish Federation, Jewish Federation of Edmonton, and other Jewish organizations as work on the draft social studies curriculum continues. Feedback from these organizations will be used in the decision-making process about when and where students learn about antisemitism in junior high.

Quick facts

- In Alberta's current K to 12 social studies curriculum, students learn about injustices faced by those who historically were, and continue to be, marginalized, or who have experienced discrimination.
- The new draft grades K to 6 social studies curriculum was released in April 2024 for optional classroom piloting, which began in September 2024 before implementation during the 2025-26 school year.

Kindness Project 2025

We have received some really great nominations. We will draw for those received in January and announce our random winner next week. Thank you to those that have made nominations and those that are showing such kindness.

"Did you know that acts of kindness are a key contributor to mentally healthy communities? Kindness, as research has shown, also makes us happier, improves physical health, slows ageing, and improves relationships."

An act of kindness can be as simple and as a smile, a genuine greeting or acknowledgement, intentionally including someone in something, and can be a big as you can imagine. Many acts of kindness are free or low cost and are proven to make a difference to the mental wellbeing of a person.

An act of kindness, no matter how small, is ever wasted. You can show kindness in everyday life; from picking up the phone to say hello, to dropping round a baked loaf, to offering to pick something up for someone, to raking their yard. It could even be as simple as saying hi to someone in the street or taking the time to stop with someone who might need to see a friendly face.

Throughout 2025 we are asking you to let us know who has shown you Acts of Kindness. There are a couple of ways you can share with us:

- Send an email to fcss@breton.ca. Include the Act of Kindness, whom it was done by and their contact information along with your name and contact information.
- Drop by the Village office or the Breton Municipal Library and complete a form

Once a month we will select random entries to be awarded gift certificates to local businesses for their gestures.

Please feel welcome to contact us at fcss@breton.ca or 780-696-3636.

Our office hours are
Monday – Thursday – 8:30 – 4:00 pm.

HOLOCAUST REMEMBRANCE DAY

information from www.hmh.org & www.canada.ca

Monday, January 27, 2025 marked International Holocaust Remembrance Day where each year families gather to remember the six million Jewish children, women, and men murdered in the Holocaust.

On January 27, 1945, the Auschwitz-Birkenau concentration camp – where more than one million people were sent to gas chambers and to their agonizing deaths during the Holocaust – was liberated. In 2005, that day was designated as the annual International Day of Commemoration in memory of the victims of the Holocaust. Each year, Canadians and individuals all over the world take this opportunity to remember the victims of the atrocities of the Holocaust and reflect on the dangers of anti-Semitism.

Some Holocaust Facts:

- Jewish people were not the only victims of the Nazis. Other victims of Nazi mass murder included Roma and Sinti, people with disabilities, Poles, Jehovah's Witnesses, gay people, and Soviet prisoners of war.
- A common statistic claims 11 million people were murdered by the Nazis (6 million Jews and 5 million others). While the number of 6 million Jews is supported by evidence, the 5 million others is not. It was invented by the Nazi hunter Simon Wiesenthal.
- Of the about 6 million Jewish people who were murdered in the Holocaust, 1.5 million were children.
- The Nazis didn't invent concentration camps. The idea of a camp holding civilians considered enemies of those in power had precedent in several other places first, including South Africa, Cuba, the Philippines, Namibia, and the United States. The Nazi innovation lay in their use of poison gas to murder people at sites we now call killing centers.

Pictured left has the headstone for Albert Lee. Albert Lee was part of the 1st Canadian Parachute Battalion. The Parachute Battalion were the men who jumped into Normandy France early morning June 6, 1944 to capture and hold essential targets for the Orne River Crossings & Merivale Gun Battery.

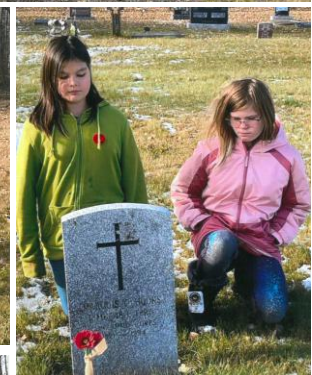

REMEMBERING THOSE WHO FOUGHT FOR US

by Shawna Ofstie

I was recently given these photos that were taken after the Remembrance Day Ceremony held at Breton High School on November 8, 2024. Students posed with headstones of those men who volunteered to serve in WWII and laid to rest at the Breton Cemetery. Thanks to Tom Impey, Jeff Gooderham, and Bob Fougere (SGT at Arms RC Legion BR 236, Winfield) and all that attended the ceremony.

While millions of people became victims of the Nazis forced into work camps, starved, tortured and murdered, our soldiers were fighting in other parts of Europe.

Let's never forget how important it is to continue to remember and honor those who fought, continue to fight and those who survive.

BOLSTERING CANCER SUPPORT PROGRAMS FOR ALBERTANS

Alberta News, January 23, 2025

Alberta's government is providing nearly \$1.5 million to Wellspring Alberta to support individuals and families affected by cancer, particularly in rural and remote communities.

Albertans, especially those in rural and remote communities, deserve access to timely, effective, comprehensive health care when and where they need it. Ensuring access to comprehensive care also means providing vital, wraparound support services that address the emotional and mental well-being of individuals and families facing serious health challenges, such as those affected by cancer.

To ensure all Albertans have access to services that complement cancer care, Alberta's government is investing approximately \$1.5 million over 15 months to support Wellspring Alberta in delivering essential care for cancer patients and caregivers.

As a community-based organization that provides emotional and mental support for Albertans affected by cancer, this funding will ensure Wellspring can continue delivering its programs and explore expanding its offerings, which are focused primarily in rural and remote areas. These programs include counselling services and peer support, helping patients cope with physical and cognitive challenges that result from cancer treatments, and connecting family caregivers with trained volunteers who have shared experiences in caring for loved ones with cancer.

"Cancer affects many lives across the province, and this funding will help ensure Albertans have the support they need as they navigate their cancer journey. By collaborating with health partners, we are taking concrete steps to build a more sustainable and equitable health system for Albertans." Adriana LaGrange, Minister of Health

The funding is designed to align with ongoing health care system refocusing initiatives. Wellspring Alberta has demonstrated its ability to leverage virtual platforms and in-person programming to serve patients across the province, ensuring cancer patients and caregivers in rural areas can access services without needing to travel long distances. This approach helps alleviate pressure on the acute care system while enhancing patient outcomes and reducing the need for hospitalization.

"We are incredibly grateful to the Government of Alberta for this vital investment in the well-being of Albertans living with cancer. This funding will allow Wellspring Alberta to expand and sustain our programs in rural and remote communities and ensure rural families can navigate their cancer journey with a community who gets it." Bill Gilliland, board chair, Wellspring Alberta

Alberta's government is committed to evaluating the impact of this funding and is working closely with Wellspring Alberta to ensure programs are delivering measurable benefits to patients. By providing cancer patients and caregivers with the support they need, this initiative aims to improve mental health, reduce emergency room visits and decrease hospitalization frequency, ultimately leading to better overall health outcomes and more efficient use of health system resources.

Quick Facts

- Wellspring Alberta offers more than 70 programs that are available online and over the phone across the province, at centres in Calgary and Edmonton, and at select community hubs throughout Alberta.
- The organization works closely with Alberta Health Services and Cancer Care Alberta to deliver supportive care programming to patients and caregivers that complements the services provided by the public health system.
